336S-NY-306636 09/14/2011

[REDACTED] This is Special Agent [REDACTED] with the FBI. Today is Wednesday, September fourteenth, approximately seven forty-seven pm. The following will be a conversation between source and various members of the Republic for for New York in a conference call.

b6  
b7c

(noises)

Alright, I'll start over. Can you say your name, [REDACTED] alright, we'll one at a time so we have it on record. Ah, [REDACTED]

b6  
b7c

UM: Ah well, I think because I sent him that the motion from the (UI)

UM: Sure right, they could be..

UM: (UI) I hear anything.

[REDACTED] Alright thank you. [REDACTED].

b6  
b7c

Yea.

[REDACTED]

b6  
b7c

Yea.

[REDACTED]

Yea.

Ah, [REDACTED]

Yea.

b6  
b7c

[REDACTED] (pause) No?

UM: He's logging on tonight? Oh you want..

UM: Yes he is.

UM: Okay. And [REDACTED] voting as a member?

UM: Yes.

UM: Okay.

Ah, [REDACTED]

Yea.

[REDACTED]

UM: Yes.

Yea.

UM: (UI)

[REDACTED]

Yea.

And ah, that's it. Thank you. It looks like we um, fourteen who...

[REDACTED] is here with me.

Announce yourself [REDACTED] this is old forum, like for ah Lieutenant (PH) Government and you know..

Yeah.

UM: ..finishing the up right now.

Alright this is [REDACTED] representative from New York. Hello?

UM: Hello?

Yes.

And, and your vote is?

Ah, yes for [REDACTED]

Yes. Okay thank you.

Mm hmm. Thank you.

Alright so that is ah, fifteen. Ah I'm sorry, fourteen to one.

b6  
b7C

b6  
b7C

b6  
b7C

b6  
b7C

b6  
b7C

UM: Ah did you count my vote?

[redacted] Fifteen to one then sorry.

b6  
b7C

UM: Alright, [redacted] is not gonna vote yea so.

(pause)

b6  
b7C

Okay. Um, thank you [redacted] and welcome and congratulations.

I thank you very much. I thank you all.

b6  
b7C

(pause)

Alright, next up on the line here is ah [redacted]  
[redacted] is nominated by for um, [redacted] ah  
maybe [redacted] could tell us a little bit about  
herself. I know that she sent a resume to all of us.  
Ah, maybe if you just briefly go over the highlights  
if you can.

b6  
b7C

Hi everybody, please excuse my voice again, I have  
twenty-five years of office experience and for the  
last ah, almost fourteen years I've been ah, office  
manager. I've done bookkeeping, account reconciling,  
you know paperwork on, very a computer literate, um  
ah you know you do have my resume, I have letters of  
recommendation um, I definitely feel I could do a  
very good job at this. Does anybody have any  
questions for me?

(pause)

UM: No questions?

UM: I have question. Ah [redacted] do you, you were  
running, you going were nominated as a comptroller  
once?

b6  
b7C

[redacted] Treasurer actually.

b6  
b7C

UM: Treasurer?

[redacted] Right and that was decided that they wanted ah, [redacted]  
[redacted] (PH) for that, which took on out.

b6  
b7C

(pause)

UM: Oh.

(pause)

UM: Okay.

(pause)

And I'll address...

UM: Ah..

.. the various ah, questions for me..

UM: Yeah um, ah, hold on, hold on. [redacted] as far as [redacted] (PH) is concerned I planned this item ah [redacted] is gonna have every opportunity to work in my office, they've got so many openings in the treasurer, comptroller, office, there's ah, [redacted] office and also um, ah, maybe a [redacted] office and also my, my office. I have to have, I don't know how many um, ah, what is it ah departments that are in New York, in New York State, but for every five departments I have to hire an analyst. It's required by (UI), every five departments, like in the department of transportation, the department of agriculture, the department of this, the department of, I have to hire an analyst, then I have to another five departments, I have to hire, hire another analyst, I have to be able to review all of this for when we assume the roles, now something else came up with [redacted] ah [redacted] aren't you um, ah, didn't you get a degree in ah, paralegal?

Yes from [redacted]

UM: (UI) that's awesome. That's incredible. We, that's should be..

Thank you.

UM: ..that was what (UI) was telling me. Now I mean, well we're not here, I'm not here to tell you to

b6  
b7C

b6  
b7C

b6  
b7C

b6  
b7C

b6  
b7C

b6  
b7C

what to do, but I, I that's, that's awesome, I mean if something...

[redacted]

Well..

b6  
b7C

UM:

..we've got (UI) in her (UI)

[redacted]

Now..right, and I, and I wanna help now um, you, you know, just is as a normal corporate world there will be changing of positions as necessary. You know, promotions, whatever. I'm just, took this nomination because I'd to start helping now.

b6  
b7C

UM:

Very good, I, I agree. I agree with you, then down the road um, national understands that, that people have, have at times, right now we need people to fill positions, down the road when things go on.

[redacted]

I'm on the phone baby.

b6  
b7C

UM:

That they feel that, they understand that people will be moving around into, into jobs that end up being ah, more of they're, more they're better suited. So this is why I, I, I totally agree with this. I'm, I'm gonna be it right now.

UM:

(UI)

[redacted]

Alright, does anybody else have any questions? Comments?

b6  
b7C

(pause)

b6  
b7C

Okay, ah I'll assume that's no and ah, ask for a nomination.

This is [redacted] I'll nominate [redacted]

Alright, thank you. Can I get a second?

[redacted]

I second.

b6  
b7C

Alright, thank you. And then will go down the same line and ask again by name um, [redacted] (pause) I'm sorry [redacted] ah how do you feel that?

b6  
b7C

I know, I, ah yes.

Alright thank you. And [REDACTED]

Yes.

Ah, [REDACTED] I'm sorry, [REDACTED]

b6  
b7C

Yea.

Thank you. [REDACTED]

Yea.

Thank you, ah, [REDACTED]

Yea.

Thank you, ah [REDACTED]

b6  
b7C

Yea.

Ah, [REDACTED]

Yea.

[REDACTED]

Yea.

And [REDACTED]

Yeah.

And [REDACTED]

b6  
b7C

I vote yea.

Okay thank you. That's a unanimous.

Yes well don't forget for [REDACTED] here,

[REDACTED]

Okay.

(UI)

[REDACTED]

I'm sorry. Yeah [REDACTED]

yeah, Yes. Yeah.

Alright thank you.

Thank you.

Alright, that's a una..

UM:

Alright thank you (UI)

[REDACTED]

Unanimous.

UM:

(UI)

[REDACTED]

What's that [REDACTED]

I get to vote?

UM:

Ah..

[REDACTED]

Well I thought, I thought you nominated her?

No, I seconded it.

Seconded it. Okay.

(UI) to vote. I vote yes.

Okay, sorry. I'm not really sure how this works yet.  
Ah we're, we're getting there. Thank you.

Yeah.

(coughs) Alright, I guess that's a unanimous. It's a  
fourteen, fifteen to zero. Welcome [REDACTED] and  
thank you and congratulations.

Thanks everybody. I'm sorry but I have to get off  
the call, I have to do something with my son and  
that I previously arranged before this was set up.

Okay. Alright. Thank you.

Thank you everybody. Bye.

b6  
b7C

b6  
b7C

b6  
b7C

b6  
b7C

b6  
b7C

b6  
b7C

UM: Bye.

Alright and ah, the last nomination for tonight is um, (makes noise) [redacted] for ah, Congress, I guess that's the same thing as representative, am I correct?

b6  
b7C

UM: I'm not sure myself. Yeah (UI)

UM: Yes you are. That is. It's the House of Representative or Con, or or Congress, yes.

Okay. And ah, you'd like to tell us a little bit about yourself and your background?

Yep. I'm a [redacted] technician. I've been doing that for like twenty-five years now. I also have a hobby in computers. I've been in this Republic now, of New York for about a year and a half. I've been researching (ringing) you know, well for be ah two years and um, (ringing) I'm greatly appreciate (UI)

b6  
b7C

Computer: Welcome to Verizon Wireless, the wireless company..

UM: Ahh..

UM: (UI)

UM: Hi, I got it routed ah, sorry about that.

(noises)

Ah [redacted] are you done?

b6  
b7C

UM: (coughs)

UM: Still there ah?

UM: (coughs)

UM: Are we here?

Yeah we're here, are you, are you, we're you done yet or..

b6  
b7C

[REDACTED] I am done yes.

b6  
b7C

(UI)

I (UI)

Okay.

(UI) hear anything else so I..

Alright thank you.

..pretty much I'm done.

Alright, then anybody have any questions? For [REDACTED]

b6  
b7C

Alright [REDACTED] do you understand all of the um, the duties that are involved? Ah have you, have you been briefed?

I have not been briefed on them yet. No.

Oh okay. Well, then maybe we should go through that. Um..

Okay.

Alright, [REDACTED] can you brief him on the ah, Congressional jobs? Like ah, what his commitments please.

b6  
b7C

Ah, ah, sure. Um, as a representative you are required to join ah, or to become a member of a committee, a list of which is ah posted on the Congress website, you can check that out there. I think about nine committees. Um, so you have depending upon the night that that particular committee meets, ah you have to available for that meeting, that call, in addition to that on Tuesday nights at nine o'clock, there's a Congress meeting ah, from attaining, ah a um, a ah, representative's meeting, the Senators meet separately ah sometimes joining Congress for the same call at nine o'clock on Tuesday nights. Um, so those are the requirements as well as representing the people ah and ah, forwarding in accordance with the will of the

people. Um, that's, that's about all I can think of at this point. If anybody else could add anything else, I'd appreciate it.

Yeah you, you went through all the calls that he is he has to work around right?

b6  
b7c

Yes, that would be the co, committee call, ah that would be whatever day that particular committee meets and the call for the representatives, House of Representatives ah which is scheduled a regular basis each Tuesday night at nine o'clock.

And (UI) of course.

Yes.

Okay.

Mm hmm.

Okay that doesn't seem to be too difficult but I will check the website just to make sure to get the proper information so I wanna you know, I could be on the committee in the proper times.

Sure. Okay.

Alright [redacted] one of the things that I know that your first diligent, you've been on the calls with us, it's really good but this is going to get very, very serious. Now is um, is [redacted] (PH) on the line tonight?

b6  
b7c

No he is not.

Ah, she you know what, she dialed me last night telling me that oh she's been away in Europe. I mean, excuse me? Well I think that somehow, somewhere we should have someone, if somebody's gonna be a completely away on a, on a situation like that and not gonna have anything to do with their job for a long time. Okay, that they should at least make notice to somebody. Now I don't know what you want them to make notice to my office, you want me ah, to you wanna put somebody in charge of the

congress ah or all the representatives, let's say both Senate and House, and, and House Representatives. So that they could just send you an email or drop you a line or something like that to explain it. Because she called me up last night asking me to ah fill her in on everything that she's been missing. I, I asked her if she thought I was a co, Congressional (PH) member, and she was just dumbfounded, okay, I, obviously I'm not a, a Congressional (PH) member, she called me right before I was about to get on to the governor's call last night which is extremely important cause I have something to say about that. But to call me and just tell me oh yeah well I haven't been around for a while. I, and then start to asking somebody like me to tell her what's been going on in Congress and stuff like that, I, I, I don't even know how to address that everybody. I, I, so well in some certain sit, situations like this I don't want to get upset with anybody, I mean I don't, I don't wanna just you know just start roosting it and, and and asking you know explaining to people why you, you know you're calling me right before I'm supposed to get on a governor's call to try to brief you for weeks or months of absence. Um..

UM:

I have a (UI) for that.

I, I mean will you just, you know and I, um, I understand that [REDACTED] you know and I'm, I'm actually addressing not only you, but everybody else. I am not saying look, everybody's got obligations, things happen, family, jobs, stuff like that, there's times you're gonna miss a call. I will ah you know but I do not, listen I am not gonna be like your dad, calling you up and asking you if you're not on a call. Now as things get ser, more serious, we have to decide about who's getting paid, who's not getting paid. Okay? And who's getting back pay and who's not getting back pay. Alright now, this is very, very serious um, ah, ah thing I'm gonna talk to everybody about after ah, we're done with this, so [REDACTED] you could understand that? And everybody else I think completely understands for the most part, my Congressman and Senators are quite diligent, they do what they're supposed to ah, a lot

b6  
b7C

b6  
b7C

b6  
b7C

of people are starting to, to get it, okay so, just understand that [redacted] that this is gonna get real serious now and [redacted] that, ah [redacted] you can um, can you brief him at all or send him a, send him an email and give him the link or some place that, cause I don't how you guys joined the committee, so if he..

b6  
b7C

Sure.

b6  
b7C

Am I asking you to do so much there [redacted] What?

No, no, no, um..

b6  
b7C

Yeah.

[redacted] if I could have a your email address and ah, actually you'll be getting one ah, at Republic ah for New York or Republic New York [redacted] Is that correct?

Ah, yes Republic for New York. Ah, so...

UM:

(UI)

Okay.

b6  
b7C

UM:

(UI)

Yes.

(UI) period my last name [redacted] spells out [redacted] ah at Republic for New York dot org.

b6  
b7C

Okay.

That's my email.

Okay fine I'll send information ah to you at that email address with ah links to the ah, Congress website.

Great. (UI)

And information about getting on a committee.

[REDACTED]

Thank you very much and I do, I do wanna make a comment to what [REDACTED] had said and the comment wasn't anything bad, it's just ah you know to bring it out, if we are recording these calls, then we should be able to have access to get back at them and re-listen to them if we don't, if we miss a call, so whoever [REDACTED] whomever missed them, they should do that instead of you know calling you up and asking you to update them on what's been going on for the past month or months or whatever it's been. That's it.

b6  
b7C

Alright so if somebody is asking for all of the conference calls that are no longer available on, on the site because they do erase them after a period of time. Ah they can always contact me as well and I can forward that ah, file to them or give them the link to ah, file audible link.

b6  
b7C

UM: Right I was just gonna say that. If, if that's maybe the case, if they're gonna delete them or whatever, then maybe ah, like I said there should be a way for them to access that, let's say that I, I missed today's call, tomorrow I can go well I'll see I'll go right to the website and I'll just download it and re-listen to it. They should have that option and be able to do that if they should miss it you know. I mean if they have just stay away for a month or two months, then if, you know on on their, you know they can do their due diligence ah due diligence to check it when they do miss a call. So they don't just stay away for a month and then expect somebody else to brief them.

[REDACTED]

Right. That would be my assumption.

b6  
b7C

UM: Okay.

[REDACTED]

Alright so ah does anybody else have anything to add or is ah, comments on ah, ah [REDACTED] position as representative?

b6  
b7C

You might wanna forward him the telephone number and the access code, alright.

UM: Yeah, yeah I have said that. Thank you.

UM: Oh, is there else that I could...

b6  
b7C

(pause)

UM: Alright so um, do we have a nomination? For [redacted]  
[redacted] As representative? Somebody would like to  
nominate him?

b6  
b7C

(pause)

Yeah I nominate [redacted] This is [redacted]

b6  
b7C

Thank you [redacted]

I second it, this is [redacted] and I second the  
nomination.

Ah thank you [redacted] And again I'll go down the line.  
And ah, [redacted] Yea or nay?

b6  
b7C

Yea.

Thank you. [redacted]

Yea.

Thank you. [redacted]

b6  
b7C

Yea.

Thank you. [redacted]

Yea.

Thank you. [redacted] are you there?

Yea, sorry I, I muted myself, yea.

Alright thank you. And ah [redacted]

Yea.

b6  
b7C

Alright, and..

[redacted] here on, [redacted] here on my call.

Okay. [REDACTED]

Yeah.

Alright, thank you. And ah, [REDACTED] who's with you?

b6  
b7C

Yeah, mine, my vote of course is yea but I seconded it. And [REDACTED].

[REDACTED] yea please.

Alright thank you, that's a unanimous.

b6  
b7C

Ah I get a vote.

Oh I'm sorry [REDACTED]

(laughs)

(laughs) Alright.

Yeah well I get a vote too.

Oh, okay [REDACTED]

Yea.

b6  
b7C

Alright. Um, alright that's everybody. Unanimous. And thank you and welcome, and congratulations [REDACTED]

Thank you very much and I hope to do very well in the position. I appreciate it.

Alright so there we go. So now we can um, go on to other business. And I guess ah [REDACTED] has some information he has to share with us?

b6  
b7C

Yes the governor's call just keep getting better and better guys. Um, last night, oh just, just so everybody knows. Um, anybody who wants to ah, to, to ah, ah with the, the governors and stuff like that I know that I'm, I'm the only one so ah, but there's a complete record of the exact times that I log on and log off of every governor's call. Okay, I mean too bad if you check, if you get on at ten, at a, a

let's say ah, the call starts at nine o'clock, if you get on at eight fifty-nine and twenty seconds, that's exactly what it says and it tells you exactly when you get off. And if you drop the call, it will show you that you got off then and when you come back on. Okay. Like sometimes ah if you're on a cell phone. So anybody who wants to um, to look that over ah, it at, at anytime if we ever have to ah, do that ah, because I know I'm here say telling everybody else what, what you know they, they ah, they're required to do. If anybody needs to know ah what I'm doing. Ah, those are pictures, that all those records are right there. Although the governors are quite secretive about the information um, I can show it to to whoever we need to in the, especially in Congress or our to our attorney general whoever you think or comptroller when the time comes to show what I've been doing. Um, so this way you don't think that something is (UI) ah! Get, let's get back. Like I said the governor's call is getting better and better. Last night ah [REDACTED] (PH) who is the former um, ah, Chief Ambassador, ah since he hasn't been doing this Ambassador job but he's a member and ah, and I don't know exactly what post he's holds in ah, Arizona but he put together an incredible spreadsheet budget down to the letter, I mean down to things like automobiles and fuel costs, [REDACTED] (PH), ah but he has like you know for all those people's salaries. It's ah, has all of their staffs. Ah, like I said it talked about hammers (PH) coming out of the governor's office, each one of the ah, ah, the ah, ah the, the executives and oh shoot, let me see he's got the executives, he's got you know the governor, lieutenant governor down there um, see who else um, secretary of state, ah attorney general's, ah state administrator or record keepers, he's got complete, a complete um, budget for everybody and I mean down to every last possible co, um cost that there could be. Um, things like budgeting for people's travel expenses. Um, like ah for Congressman, the travel expenses for ah, ah for things like your attorney general and your justices and ah, ah office costs and it's just, ah it's incredible. I, I..what this guy did must have taken ah I don't know off hand, I don't know how good (UI) hundreds of hours. And um it's an amazing, amazing

b6  
b7C

b6  
b7C

ah, ah spreadsheet budget, now he created in a way which is awesome that all we have to do remove the Arizona logo, insert our logo in there and then go line by line, it's ah anything that ah, via the changes we need for New York. Now the reason why he, he did this is because he, what he thought is that most of the, the ah costs ah there's an awful lot of things in there that he figured ah out what the ah sustained state to state now except for things like let's say an office space in New York is more expensive. Of course we would do that um, but things like a car rentals and stuff like that, that doesn't really change state to state. Ah, like there's just so much in there I did, it's just so hard to to to remember everything but believe me um, it's all in there, it can all be changed, it could be changed to anything that really, um needed to be changed to ah, we can also add in positions, ah since his state, I think he showed ah, let me see what was his population, I think they showed um, a population of Arizona as six million something thousand or something like six, six million, six and a half million or something. Ah here in New York we have the third largest state ah, we are ah, a little over nineteen million. Um, Texas is twenty something million, twenty-six million and California's I believe thirty-seven million, I have it ah written down, I'm sorry I'm not ah right near that paperwork right now. Um, so we're like number three and then just underneath is ah Florida, Florida's population is eighteen million something. Then you have Pennsylvania, ah ah excuse me I think Illinois, and Pennsylvania and Ohio. So they do expect New York to be higher so there's an awful lot of states that would be tremendously lower, states and places like Vermont, and Rhode Island, Wyoming ah, Montana, where the populations are very, very small. So what he did was at the present time, he took the added all of the budget and he times it by fifty because he figured that he was about the ah, the median, now not the average, you gotta remember you got mean, median, and average. Okay. He was ah, well mean and median lower, excuse me, ah when you do things like this with their population (coughs) but um, he took his number and times it by fifty, now as each state comes in with their budget and (UI) their budget and

send it to them, he eliminates that he, he takes out that one number and replaces it with the actual number from the state. So [ ] has an idea right now, he can, [ ] can leave if he wants and ah, and bring a ah number to the ah, ah to the, to the funders (PH) right now as it stands, but the faster we do this, the quicker we do this um, the better off we are. Now I'm gonna tell you this straight, you gonna make the salaries here in New York, what you wanna make them, that's fine. We did discuss them the other day about what salaries are but you know what, what Arizona's doing is basically they're going by what the um, the Congress and Senate ah sub-committee on budget ah on budget um, has recommended. So I'll tell you this, um, you have people like um, I think their governor's salary was recommended at a hundred and thirty-seven five or something like that. Um, and the congressman and senator's salaries were a hundred and fifty-six thousand dollars. Which I find..

b6  
b7C

UM: Excuse me, excuse me.

..very weird since...

b6  
b7C

UM: Ah..

..it's like a fox in the hen house, he's like ah, besides the president and vice president and a few of the chief justices, they have the highest salaries in the, in the land. There's no difference between senators and congressmen. I'm sorry people ah we must be under attack over here or something. I, I have a ah fire whistle in the background and ah, I'm gonna have to mute for a second if you have any a questions alright um, just think of them for a moment, let me mute...

b6  
b7C

Okay. Ah yes [ ]

b6  
b7C

(noises) (pause)

Yeah [ ] this is [ ] I got a suggestion as far as something to put in the budget.

Alright ah well the, the siren went ah, just stopped, um, but you guys have a question there?

b6  
b7C

Yeah I do.

Yeah go ahead.

Well I, I got I've been listening too quite a few calls and ah, even ah cause if we talked about a little bit on Sunday as far as security.

Right.

Well my, my I would like to make a recommendation for a budget for a, I'd like to give everybody in, it's a some type of any, any position, a handguns and handgun training. Just for, cause we gonna be fixed budget when this all goes down.

Okay. Is this [REDACTED]

b6  
b7C

No this is [REDACTED]

Oh [REDACTED] oh, okay listen [REDACTED] um, certain offices are budgeted ah in this thing to have security. Um, like [REDACTED] (PH) was saying he would rather not have the governor walking around packing and down here on Long Island is quite, it's, it's, it's kind, it's pretty much frowned upon you know having any kind of ah, ah like handgun and there's an awful lot of people um, that are ah, trained and qualified and um, you know they are, ah budgeting certain things, ah certain people for having um, ah personal security and body guards and things like that um, the governor is one of them they're recommending he have it, I don't, at this time I don't think I don't need anything but um..

UM:

Okay...

[REDACTED]

But.

b6  
b7C

UM:

That's sounds like (UI)

[REDACTED]

They're recommending that they think that ah there's supposed to be ah, ah there's gonna be some turmoil

b6  
b7C

as, as things chan, a turnover in the next couple of months, ah when people start realizing that their jobs and their job security is in jeopardy and ah, that they're about to be removed and stuff like that. They feel that and also um, this will be an awful lot of um, they're recommending security in all of the offices. Now a one of the things I think that Arizona did was I think they would, they were budgeting for one office, we have to budget for five of them and all five of those offices definitely are gonna have full scale security in them. Um,

[redacted] you had an idea and [redacted] those people wanna get armed or you wanna ah, do you wanna do, do that I have no problem with that. I really don't. Um, if anybody here wants to feel safe by doing that and ah, it's legal cause we know it's lawful but as far as legal, we don't wanna see anybody ah, get in trouble with the de facto ah in the meantime. But um, if, if there's anybody out there that's willing to do this with you [redacted] I, I really do appreciate that. Ah but [redacted] you were talking about security. Why don't you um, ah, remember the other night, you were telling me what you, you ah, had ah come up with about the office and your own security.

b6  
b7C

b6  
b7C

[redacted] Yeah I mean I am totally am for you know um, everybody that's involved getting training, I, myself, would like to get training. I'm not trained with guns. Never have been. Never been into guns but ah, I think everybody should go through some kind of training course. It's hard to secure in OG building, um, you know I would never be an entire saying on duty kind of thing where any weapons that we would have that we'd be using I would like them to be, you know registered to the attorney general's office or to the republic or or however we have to do it. Ah they would be issued through the attorney general's office and they'd stay at the attorney general's office unless they're on duty, once they come in you know, they'd be locked up, if but I believe everybody should go for some kind of training have their own personal weapon that's their choice or not choice, it's up to them but I mean as far as our ah, government buildings go I think they should be issued but I believe that issued weapons should stay

b6  
b7C

at the office and when they're on duty they have them, when they're off duty, they get locked back up. They should be signed in and out.

That's a good idea.

b6  
b7C

Yeah if somebody, if, if somebody wants their personal weapon, that's their personal choice. It's everybody's right to bear arms but as far as our things to go, I think that's the way it should roll, it's something you know that has to do with us and you know at the Republic, our things should be accounted for at all times.

I agree.

Ah [redacted] talk about building security, that's that's one of the things that I, I you were talking about about maybe what do you, you meant I think an on duty security guard? And it..

b6  
b7C

Well I definitely I mean I would really want that in my office like we have talked about on ah this call, and the last call ah, you know there's gonna really some of us are gonna have targets on our back you know you're talking about lawyers and judges ah, law enforcement that are gonna lose their jobs, they're gonna lose jobs, they're gonna lose their retirement everything and you know it's not gonna over, you, you know they're not just gonna take it lying down. I can't see it. You're talking about people that are corrupt to begin with and then they're gonna be taken out of their power. And ah, you know I wanted to have at least two security people at the building Monday through Friday while it's open. You know to check you just don't know what's gonna happen, we really have to be ah, very aware of what could possibly happen and it's very realistic. You know everybody knows what we're dealing with. Yeah de facto has been ah, doesn't hide anything, it's all out in plain sight it's but we've all figured it out. Ah that's pretty much it.

Yeah it's gonna get more and more open. Ah, as as time goes on and very very soon there's gonna be a lot of ah, ah a lot of openness with national about

what's going on and, and ah, how things are, ah how things are gonna operate and I don't know if everybody was here for the last phone call okay but there, they feel that the mass defection will come from one thing, okay, there's supposed to get make state charter rights in all fifty states sort of on the line of ah, South Dakota, right now, the State of South Dakota has their own rights. Yeah we have, we might move for I think we're talking about even having us issuing our own currency but I don't know how that's gonna or how that's gonna go over but let's just for the time being um, imagine that we're just using even if we're just using federal reserve notes or whatever, ah, we will have our own bank and own banks, now the way this thing is gonna work is if you have a mortgage, you don't want a house, you own a home, you have a mortgage, or you own a home with no mortgage, you would like to go and have that mortgage refinanced, you can bring that to the state bank, now you have to be a member, in order to do this you must be a member of the Republic, full DSR and stuff like that, this where [redacted] office, it's gonna be very, very um busy over there because he's gonna have to cross reference with ah, any agency where somebody is going to, to try to seek help or if they're going to try to become a member of the bank, like a, you know get a ah, checking account or a, or try to get one these mortgages now, ah what they're, what people are gonna find out is that they can go and refinance their homes. Now when they do this with the refinance, the way I understand it now I probably get this straight again, I'm gonna have to ask some more questions but I believe this is the way it works. You have no..ah [redacted] are you on the line? [redacted]

b6  
b7C

b6  
b7C

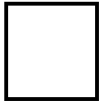

[redacted]  
Yeah I'm here.

Alright now tell me, ah remember the other night, I know maybe you were dozing a little bit but it was, there was gonna be a, a refinance of your mortgage, they were gonna pay off your mortgage to the..

b6  
b7C

UM:

(coughs)

..to the bank that holds the mortgage right now. Then they were going to, after they do that, they were going to um, ah, state, what they do is ah, they pay it off and you don't have after that, have any mortgage payments, okay, and you're gonna say how can that be? How can that be possible? Well the funders and what's gonna go on in these banks. I'm gonna have to hold these, I don't know what he's doing right now, um, the fund, the funders are, are going to um, to fund these banks, it's gonna be part of the republic to do this and what happens with your home is your home remains in your name, it's always in your name, you can live in it for the rest of your life, you can sell it, you can do anything that you want with it, but understand this, that what happens with, with your mortgage is you don't have to make payments and there's even down the road ah, I think either immediately or down ah, ah within a certain amount of time, you can even receive, um, money like twenty-five or fifty thousand dollars depending on how big the mortgage is and how much you owe on the house um, ah or how much you know the house is worth, excuse me, now what, they way this is gonna work, and, and ah, your house is gonna be collateralized now, I guess that's might be hard to understand but, alright this is the way I understand it and I'm hoping that ah that I'm I'm getting this right cause we, we might have to get an economist here to ex, to explain it all a a little bit better but your house is going to be collateralized based on ah, um, the monetary system, your house is going to become part of all of the assets of the of, of the country. Okay, along with gold and silver and everything else. Um, just give me a second please, let me get it.

b6  
b7C

(pause)

Alright I'm back. Um, now remember you might think oh if my house is collateralized I could lose my home or something like that. No. Our monetary systems okay are going to be based on material things. Things such as gold, silver ah ah the other ore and um, of the other things that ah, are here in the United States and one of them the way  explained to me is the real estate, ah all the land,

b6  
b7C

b6  
b7C

um, stuff like that. Now don't think of it guys as something that people can come and take from us, okay, it's just a way to make it, make the money worth something, I believe that if you look at what they're about to do in Iraq, I don't know how much Iraq has in gold, I think it possibly backs their currency, but if their currency revalue, it's probably gonna revalue based on ah their mineral assets meaning, meaning ah the ah, ah crude oil and gas wells that they have ah, and than any other minerals that ah, that they have. So my point being is if somebody is gonna be able to refinance their mortgage and not have to make payments, okay, and let's say just the people who are in foreclosure, just it because you're not gonna have to make any payments if you're in foreclosure um, how many people are out there that are in foreclosure who are gonna wanna come into this thing to re, to save their homes because what'll happen is their homes is gonna be, end up being paid off and their gonna remain in their homes, their homes are gonna be there, they're gonna be able to live in them without a problem, they're gonna be able to sell them down the road, how many people do you think are gonna come running into this republic based on stuff like that so, ah when that happens, you could probably bet your bottom dollar that um, we are gonna get a massive massive amount of people and ah people who are, who are going to wanna come and join the republic. Now, the way I understand it. We're not gonna have to pay any real estate taxes un, okay until we put together our, ourselves put together a system to collect the taxes. Now with the way  explains it is that the titles of your, when their titles are, um, when you buy a home or you do a mortgage on a home, what's gonna happen is we're going to gain the titles of these houses. Okay now the titles, a person's title will remain of course in their name but will be recorded as lien um, ah republic not in the county office, so if your mortgage is not in the county office okay and, and your, your recordings are not in the, in the county office well then that means that they'll have no way without your title and recording of your title to tax you. So you're not going to paying the real estate taxes and of course you're talking about

b6  
b7C

sixty-five percent or sixty percent of it here in New York is usually school taxes which is gonna probably cause a huge, huge rift.

UM:

(UI)

b6  
b7C

Um, they're not gonna know how to deal with this. Guys there's going to be a lot of angry people out there um, now what we're gonna probably end up having to do as a state, um, the the county, we're gonna have to be seated, there's gonna have to be a state congress and ah, that's something different ah besides our congressman that we have right now. And they're gonna be deciding probably about funding and how well our taxes are collected and if they're going to collect our real estate taxes and they're going to co, ah collect taxes for schools. I believe the way the original constitution of New York was written and there's an awful lot of people out there who were angry ah at the way the system sits now anyway is they claim that New York State is supposed to be one hundred percent responsible for the education of our, ah of, of the kids, in, in the, in this state all the children until they were eighteen years old or you know twelfth ah you know twelfth grade. Ah, so there's an on, an awful lot of people who are constitutionalists out there who believe that the current system, the way it sits by (makes noise) ah county, ah collecting ah taxes based on a school district right now are it's, it's not ah lawful or legal or whatever anyway so, there's probably gonna be a big change in how it's done and I'm not an advocate of destroying our schools that's not it at all. There might have to become some restructuring or something like that but, but

[redacted] ta, talks about people getting angry. She was just talking about attorneys and judges. There is going to be an awful lot of other people who are angry when they realize that their basic jobs like their redundant jobs, especially in the educational system, the redundant jobs and I'm not talking about the teacher. The teacher, the classroom size, all that stuff will probably remain ah, you can't inundate teachers with ah, I think they right now I think twenty-eight to thirty-something kids is

b6  
b7C

usually the ah, the class sizes that they feel is is a manageable.

UM:

(coughs)

b6  
b7c

Ah, they wouldn't be to say okay teachers are gonna be teaching a hundred kids or something like that um, although I don't know if you know I, I'm not gonna make that decision but um, you, you probably things like superintendents ah, individual school districts that you have like right now the smaller schools districts will probably be consolidated into super school districts but this is something that is gonna have to be discussed by con, by ah, our, our state and, and it congressman, and state um, ah, and, and the state senators, okay, that they'll have to um, come to a decision on how to do a educational system and then we'll have to put somebody in charge, somebody's gonna have to be in charge of that um, that agency anyway ah, and I, I think that you're going to see an awful lot of um, public schools, I mean ah private schools start popping up where people are gonna wanna if they have extra money in their pockets, they're probably gonna wanna send their kids to private schools and so ah, we might end up making it as I've seen a little bit more than that, but alright, let's, let's get back. The ah, ah the, the amount of people are coming into this republic could alright, could end up overwhelming us, and I believe that in the beginning it quite, quite possibly would, you'll have a lot of people screaming that they wanna you know oh I, I wanna go to a right, ah refinance, we might have lines outside of our state banks, ah because we don't even know how many we could put together right away and you might end up having people ah going crazy. Just the, the amount of people who are in foreclosure alone will be, will be coming and, and running there. Um, I don't know how that's gonna be done if you, you know you might have to set up a system ah where we have just a line or just ah, ah an agency for people who are in foreclosure and if you are like let's say your foreclosure date is tomorrow or the day after that you have to be pushed to the front of the line so that you can get into the bank and we can do something for you ASAP. So

there's gonna be so many little things that are gonna have to be done, thought out, re, you know redone ah, ah I, I just it's just incredible you, and everybody who comes in there, remember the first thing they're gonna have to do is sign up and they're gonna have to get a probably go to a regional office and sign up as, as a member. Um, so [redacted] for being the State Administrator, being in Buffalo, could be completely overwhelmed in his office if we tried to do it everything right there, what he's gonna need to do is probably have ah, a representative of his office maybe perhaps many representatives of his office like ah, they call for maybe one assistant. He might, we, we might actually have to have an assis, an assistant state administrator in all five offices. All five regional of a, of four other regional offices. [redacted] would of course be in charge of the one out West and ah the regional offices, the way we wanted to set them up would be um, we'd have the downstate here, we'd have a the southern district or you wanna call it, or you wanna call it Long Island Metropolitan, we'd have one down here where I, where I am, I'm from on, on Long Island, we'd have one ah, in what a, well I guess you could call it the mid-Hudson valley there? Um, that's probably a good name for it somewhere in that, in that area ah, like around Newburgh or the the area there like where um [redacted] comes from, um, one, one up North by Albany, okay, so we can call that the northern ah office, then we could have a central office um, you guys are gonna have to decide better than I am where it is a good mid-point um in the state over there and then one out west ah, in in that Rochester Buffalo Syracuse area. So this way um...

b6  
b7C

b6  
b7C

b6  
b7C

[redacted] (whispers:) It's still on you.

You know we have at least places that people it, you know can drive to and ah, and set up and then as time goes on um, they're talking about each county should have an office and so that I guess in each county if we have an office, maybe we could have a representative from the state inside each one of those offices. Um, so this could get, this, this could get crazy really, really fast, we could get,

b6  
b7C

we could end up getting a lot of angry people just for the fact that they're screaming at us, I wanna do redo my mortgage and, and you're not letting me, you know what I mean. I, I, you know I wanna do and I wanna do it now! I don't wanna make any payments. Why is that guy in front of me? Why is this, you know and this stuff is all gonna have to be done in some sort of orderly manner. Okay and then we're going to have to take some consideration of like I said for people if they have, ah they're in foreclosure, we might have to have an office just for people who are in fore ah foreclosure and maybe an office for people who in (UI) okay, um, so this way those people are handled on a timely basis so that they don't lose their homes um, and then, and it like I said those homes can become part of the republic collateralized in helping it ah fund our new ah, our new monetary system. Um, and then we'll have with just a, a, a regular system in place for the bank for people who aren't in trouble, um, who just wanna do like I said just wanna do the refinance and ah, and, and not have to pay any mortgage payments and things like that. Um, now for those of you who don't own a home ah, I believe that um, there's gonna be something set in place and I'd like to do it here in New York ah..(tone) especially since you if you have a job through the republic and stuff that you'd be able to um, ah to buy a home through the republic. I don't know exactly how that's gonna work. (tone) If my money, how much money down, ah, interest rates, or anything like that, that is well it's, that is so up in the air I wouldn't even know where to begin (tone) with um, with telling you about it, but it is something that they ah, that I had told you (tones) like I said that look I, I got divorced I need my rightful home I don't have one right now. Um, and you know I, and I'd like to get one and I, here I am I'm gonna lose out because I don't have a home, I'm not gonna be able to get that benefit. Well they were talking about um, people like us being able to ah, that actually go out and buy a home. So all of this being said I think you guys can start getting the idea and I'm probably haven't touched on even a portion of what's gonna end up happening. Um to these, all in these agencies and as we get more people in the

republic, you know that they're gonna, they're, they're it's gonna only bring on more ah issues for ah [redacted] over there in the attorney general's office and who knows how many staff ah people she's gonna need to have um, we're gonna become a major employer in New York State. Um, this is something that people are just gonna have to recognize that happens um, and when you talk about ah people and ah, trying to get out of our financial crises and people needing you know a job and make money and stuff like that. Cause we still have to look past things like that like everybody needs to survive, everybody's situation is not exactly the same as the next person. Some of us are more fortunate than others. That doesn't mean that somebody needs to get something just because they're less fortunate but if they have the opportunity to work, work hard take on a job here in the republic, there's no reason for them not to be paid, what that pay is going to be, it's gonna be decided by the membership. That's so, ah, I did get, ah we'll open the floor now for some ah, for some questions and ah, um and, and ah remember a lot of the stuff about the budget from last night we go on memory but believe me it's very, very, very ah intricate, it's very ah, ah, down, down to the penny, I mean ah, and the the type of costs, I'm talking about the, he went through things like fuel costs for, for ah cars, like um, that people will be um, ah will be issued um, I, I mean just to a point where ah, and they did have a ah, ah budget in there for um, a healthcare, okay so that's one of the things that we're going to be offering here in the republic so I'll tell you what when you, you we're deciding salaries and things like that for let's our office staff and workers and things like that, um, well we'll have to ah, the, ah be make these people aware that um, in that consideration but they will be getting um some sort of healthcare plan and then ah, the other thing is is the ah tax issue with the IRS ah, the way I understand it is everybody in the republic will be exempt from IRS taxes. So um, I don't how that's gonna work now.

b6  
b7c

[redacted] (whispers:) No, no I don't think so.

b6  
b7c

[REDACTED]

You have the social security system. The problem there is that the soco, the social security system is hooked into the federal reserve system, the treasury department and the IRS, okay. So I, I'm under the opinion that they're won't be a social security system. That there will be some sort of other system that will have to be put in place to provide for those people in that system right now. Let's say our elderly and our disabled. They're not gonna be left out in the cold here. And things will be decided ah, I'm hoping that they could be decided on a national level. But once again dictating to the states what's gonna on ah, you know is probably gonna get a little dicey. They'll have people who will say yes and no this is gonna be a tremendous debate um, and I for one firmly believe that our ah, elderly and ah disabled need to be taken care of um, that's our ah, ah that we're charged by that by our creator. Um and, and ah, just all of our I, I believe that most of us here have of the like, the same belief that our people need to be taken care of. So there's so many issues and I, I probably only touched on a, a you know scratching the surface like [REDACTED] was telling, we're just scratching the (tone) surface on all of the issues with jobs and challenges. Um, that they're facing us. Ah, I'll tell you what (tone) anybody who really thinks that..

b6  
b7C

b6  
b7C

(UI) that now.

..it's gonna be some sort of cake walk, okay if you wanna come and do my job, I, I (tone) just feel I'm just sleepless at night thinking about the fact that I probably will be (tones) I won't have to demand the time to just go to sleep and say to everybody, I'm sleeping, I sleep six hours, six and a half and whatever is at night, I don't want be disturbed, I need it but as governor I can't even do that.

b6  
b7C

Now a man with a (UI)

UM:

Hmm?

[REDACTED]

I'm supposed to calling for around twenty-four seven any kind of problems, any sort of emergencies or

b6  
b7C

anything like that so, I'm gonna probably be giving up my life to, to, to this thing. So anybody who wants to do this job for thirty, forty, fifty, sixty thousand dollars, God bless you. God bless you. I'll quit now. I'll quit now.

b6  
b7C

I'll do it. I'll do it.

Yeah you'll do what?

I'll do your job [REDACTED]

b6  
b7C

You'll do my job?

Listen I'll..

They don't..

Sure.

Possibly did it now, you're gonna do my job [REDACTED]

b6  
b7C

Well you just offered it, I'll take it.

But, but no is your, is your resignation as senator, is that what this has been all about from the beginning?

(pause)

[REDACTED] I explained my reasoning for the resignation. You just offered your job.

b6  
b7C

Excuse me?

Because what I'm hearing is another big government with a welfare system.

(Whispers:) Yeah.

Which is not what the republic is about.

A wel, a welfare system? What is that now?

Well you're talking about..

[REDACTED] What is that talking about..

b6  
b7C

..taking care of people.

...I don't think a welfare system..

That's not the job of the government.

We didn't get into welfare. I was talking about Social Security for elderly people who have work for their lives and need to have some money. Okay? Need to be provided for. Some people only live on their social security.

UM:

[REDACTED] Sure.

b6  
b7C

I did not get into welfare. You wanna get into a welfare debate with me, well that's a whole other story. Single moms, all that stuff, you, you know I'm conservative about that..

Any time you take the state's money and give it to anybody that's a welfare program.

Well what do you mean welfare?

You can call it what you want.

Well who's anybody?

To the elderly or anybody. That's half the jobs put up in..

(UI) probably on anybody..but didn't those people put money into a system? I believe that those people put money into a, into, into a system and now they're gonna get screwed. So should we now tell those people that they're screwed?

Well no but they're screwed anyways. If the, if the de facto...

UM:

[REDACTED] Yeah.

..right now they would be screwed anyways.

b6  
b7C

UM: I see.

b6  
b7c

If we weren't here the, the, if the republic wasn't here, the de facto broke down, they're screwed any way, everybody loses.

Oh alright listen under you, and, and, and I wanna, I wanna hear this, I want, I want this to debate because I wanna hear, I want every person, every member to give, to give their view on something like, like this right now because ah, to tell me, to tell, to tell somebody, a lady eighty years old, eighty-five, seventy-five, seventy, someone that's disabled can't work, can't do anything. Bye! See you later! Have a nice day! Well I wanna hear all of your, your, your ah, five years of plan of taking care of who are not, taking care of those, throwing them on the street, maybe we should do a, ah what? They should be set up in the field camps and just have them all sit there. Ah that's...

But you still can't handle lives, they're a welfare system..

I have to this is [redacted] and I, and I have to agree with [redacted] his views because if this...

b6  
b7c

...especially we're talking about healthcare. Healthcare is an entitlement. Regardless of, if it doesn't benefit everybody, it doesn't benefit nobody.

It is ah, it is ah..

Entitlement. Ah regardless of how you look at it. I don't, I don't care if you're nine, ninety, and it's, it's your family's responsibility to take care of you, not the system.

Well it, it benefitting for the elderly first of all every country, almost every other country takes care of their elderly, we're all gonna get elderly, so it is benefitting everybody. I don't understand how we think that we're gonna run a government and, and people that are seventy, eighty, ninety years old with all these health problems that we're just gonna

leave out in the cold. That would be like leaving out the children.

b6  
b7C

Nobody said that.

We're all children at one time. We're all gonna be elderly at one time and, and...

But..

Alright I, I..

UM:

But I'm not getting [REDACTED]

b6  
b7C

Hold it, hold it, I got an answer to that. Okay when you're children, who takes care of you? Your parents do and when, when you grow up, you take care of your parents. That's what this society. This is what a society is supposed to be based on family not, not, it's not because it's not supposed to be some entitlement program that...that, that should be funded by somebody else. It's like the school systems. The schools are (UI)

b6  
b7C

Yeah I mean, yeah, but you're looking at it ah, ah (UI) type of society, we're not in the type of society, we've been (UI) society for a hundred and fifty years.

That's correct. I, I totally..

So it does take ten years..you know ten, twenty years to get us back to the family orientated communities that we once were.

Yeah you're right. I don't disagree with what, it is gonna take a while but...

That's all that I'm saying..

Yeah it, it..

I'm, I wouldn't think about leaving old people or children out in the cold. It, it's not, I don't believe it to be a welfare system. I'm looking at it as we don't, like I said we're all little kids at

one time and we're all gonna grow to be elderly and you know I think we should all take care of each other. I think that's what it's all about. It's not prime a welfare system.

UM:

What about if they have family?

b6  
b7C

You know it's gonna take a long time to get back to the way that society that we are supposed to be that..

UM:

Well..

..you know I can't see, I would, I would personally it I wouldn't leave people out in the cold. You know if they're handicapped or if they're disabled, if they're elderly, there's gotta be something that you know...

b6  
b7C

UM:

I agree.

UM:

But people, too many people use that as a crutch because I know per, people personally that use that as a crutch.

Absolutely. Absolutely. I absolutely agree with you. That it has to be reforms. You know but it's like they're just introducing drug tests and to collecting welfare checks, that should have been done from the get go because half of the people that ah I, I know, they you know are not my personal friends but I know people that are on drugs that are on welfare. You going out and buying drugs with money you're supposed to be feeding your kids with or paying your bills with. Yeah that should have just been a given. Yeah there's a lot of reform we have to do but I can't say that we can leave people out in the cold and I really believe that we should take care of our elderly.

b6  
b7C

Look [redacted] what we, what I have been discussing just so everybody realizes that I never said anything about the welfare system. What I said...

b6  
b7C

Oh, alright...

[REDACTED] ..I felt that..

b6  
b7C

...no I, I get that..

(UI)

No I don't think there should be a welfare system. I think should be a community system where people take care of each other. That's what it, you know that's what I believe what we're supposed to be going back to. Okay I think it's supposed to be (UI)

UM: It's what, that's what, now..

UM: (UI)

UM: That's what I (UI)

UM: (UI)

[REDACTED] I'd to say something if I may, this is [REDACTED] Um, my, my feeling about the whole thing is this. The funding that we're getting and this is based on everything I read, whether it's true or not I have no clue but I surmise that the funding is coming from a global settlement program. This is a wor, global system to repair the entire planet. Whether that works or not is another story. So it this is a global thing to help humanity and the globe is our neighbor, the globe is our family, the globe is our, our friends and our mothers and our fathers and our brothers and our sisters. It's the whole globe involved in this. This is not just the republic and these funders I believe, from my understanding, is a global system intent on fixing this, this whole entire planet and um, so it's not our money, it is in a way because it's been stolen from us, now it's being given back to us for this purpose. So that's all.

b6  
b7C

[REDACTED] Ah yes [REDACTED] ah, (UI) with [REDACTED] I ah, I think that we're all on board with a shooting for an ideal which is less government ah, because we've gotten used to ah government encroaching on our liberties but um, you know, without some sort of safety net, it it really devolves it I mean human nature is not

b6  
b7C

perfect yet (laughs). It might never be. We're trying to improve but I think [ ] is on the money that is what's behind this and ah, what do we do about orphanages? Do they get shut? That's ah, that can be construed as a welfare program. Do they get shut down and the kid's ah, thrown out on the street?

b6  
b7C

But [ ] (UI) camps..

b6  
b7C

(UI) be orphans.

[ ] we can use the ah the FEMA camps. We'll, we'll deem all of the old people, we'll that don't have a family member to go and live with, cause what we'll tell them, look go live with your family. Cause let's be pragmatic here, I'm gonna be pragmatic, we'll use the, this, the, the okay..

UM:

But..

...too bad system, you know what I mean. The, with what you said to be the too bad system, cause that's what we're gonna call it, we're gonna the too bad for you system. Okay, um, you don't have the means to work, you're disabled, I guess the way we do what? What Hilter did? Was doing to them? He was sending them to the asylums and then all of the sudden the asylums were, they were murdered in the camps.

b6  
b7C

UM:

No.

You know what I mean. Then what do we have mentally handicapped? I guess we'll do the same with them because that was what Hilter did, you see..

b6  
b7C

(UI)

Yeah he just saved a lot of money by not having to house them and now um, orphans..

UM:

[ ] you really are going way out there, aren't ya?

b6  
b7C

336S-NY-306636 09/14/2011

[redacted] Well you do, like not, what do you mean? Whoa, whoa, whoa, [redacted] what, what how am I going way out? I'm, I'm being pragmatic here. What about, what about...

b6  
b7C

UM:

Yeah.

[redacted] ...the orphans like he just said? What do I do with, what do I do with the orphans? Do I just close those things like do, do in Brazil? In Brazil the kids are turned into gangs. Go to Rio De Janeiro. Go to the net right now, you can see in Brazil, the kids are orphaned are just running wild in the streets there. They have shoes and they become, they grow up to become gang members as in, it, it's, it the, it's a huge problem in Brazil right now because Brazil has no safety net for children. I mean we keep doing this over and over and over again. This is not an exaggeration. Now I'm not talking about a welfare state. I'm talking about less fortunate. The welfare state you guys can debate all day long on who's gonna get money and who's not. Cause it won't, like, like in New York City, what did they do? Women with children, you eligible to work?

b6  
b7C

(UI)

Well then we'll put your kids in some, in some ah, ah in some daycare and then you gotta go out and do a job. Okay. You gotta start making some money on your own. They, they figured out something in the city there. The city welfare rolls were, were decreased marketably. Through the ah, Giuliani system that he, he put in place. Now ah, am I saying they're right? Ah how the heck do I know? I'm not involved in them.

UM:

All you have to do...

[redacted] That's not my..

b6  
b7C

UM:

.. is study the constitution and and what a republic is and then you find out what the responsibility of the government is and why you need to tell the people who want to take responsibility for living in a republic. I have been in a little to a webinar so

I'm gonna have to leave the call. It's a constitutional webinar.

b6  
b7C

[REDACTED]  
Yeah.

UM: So I have to say goodnight to you.

UM: Thank you very much (UI)

[REDACTED]  
This, this is [REDACTED] ah, I have a question. Ah what happens to the people that don't have family? What are we supposed to do with them to the elderly and stuff like that? You know it's, it's not fair to them if they don't have family to take of them. So I don't understand where you gentlemen are, are trying to go here with..

b6  
b7C

b6  
b7C

Well they were, they were indoctrinated into a system. They weren't the system. They actually paid into social security. Now all of a sudden, you're gonna say okay they don't get social security, Okay. Alright fine. Okay now are we gonna put everyone of the, we're gonna create another agency that just processes each one of these people.

UM: (makes noises)

[REDACTED]  
(UI)

b6  
b7C

That says okay you are on social security, you're not on social security and whether you have an account. Okay, what are we gonna do? We gonna contact the family for them and say mom and pop are coming to live with you or whatever. I, I think that if we create start by, ah start here by creating a system that will eventually have this compassion, okay that you guys been talking about, about taking in elderly people and stuff like that. I'm all for it. [REDACTED] all I have left is one mother. Okay. I don't have, now I'm gonna have to worry about sick mother's and father's. My father passed away. We did there's three people in my family, me and my brother and sister and I have to, I would definitely chip in with my sister to help our mother, my mother has, in fact what I did was I, my mother has social security but what I did was, I took all her money put it into

b6  
b7C

certain funds that she collects money from every month. She can't get a hold of all that money. She just gets a check every month from a financial system that is in place. See I've invested, okay. So some of us understand that but there's so many that just don't have that. They just don't have that.

UM:

Ah, I'd like to say something else too when you get done. What I..

b6  
b7C

Yeah I mean..

UM:

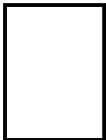

Well..

b6  
b7C

..that to not have any compassion in, in any form ah would just I, I don't know, I don't know if I can live with myself in a, in a system like that. I mean what am I gonna do? Like oh I feel bad for everybody so I have them all come live at my house? I mean the, the state won't even allow you to do that most of the time. No you have too many people in your house. You know you're overcrowded or something. Not! Look, look, look. I am for the republic form of government. Okay. Absolutely. The problem is we're taking over a system where people were indoctrinated one way and [redacted] has it right. That it may take some time to make the changes. That's why as Congressmen, Senators, what is so important to do, okay what's so important to do is to figure this stuff out in committees and, and in other places so that eventually the burdens, certain burdens are taken off the republic and, and government and put in the hands of people. The, the expect that we're going to do utopia over night I, I, I even know you know I, I don't even know how to address that. I mean you guys need, you guys got the bet, way better ideas than I do. I mean cause I I could just see the only way, thing I could do is see, is setting up camps and then the whole camps would be welfare system because what are you gonna do..

b6  
b7C

But now, you're supposed to bring up camps..but I'm not saying, I'm not saying throwing people, there is gonna have to be a transition period but I'm saying, I'm not telling everybody to throw everybody under the bus but, if we're supposed, well kind of like

b6  
b7C

people use the bible they only use parts of it that fit what they wanna use at the time. Well if we're gonna use the constitution, shouldn't it be everything would be constitutional? I'm not saying throw people under the bus. Don't get me wrong because now, now you're saying something I'm not saying but there's, ah, ah because we should not..

(UI) Well [redacted] tell me your idea of what I do with these people in the meantime.

b6  
b7C

Well there's gonna be a transition period.

Well there's going to be, there's going, there's going to be ah. [redacted] I want utopia. I want everyone living still I'm taking care of your own parents, taking care of themselves, I'm all for that. But tell me what I do in the meantime. And pray that you got this answer, this great answer for me. How am I, and a, and a, and look I, I know I'm being a little facetious here but I, I apologize. Look, I, I mean you know wow, I I mean and what's really great about something like this if I be, you know we, we take over I, I'm the governor and I told all these old people they're out on the street, I think we'll have riots. No I, I really do. I think we'll see rioting.

b6  
b7C

b6  
b7C

Sure. Being that...

UM:

Yeah.

..do you know, do you know what's going on in the United States at all? Do you know about Florida and their tent cities and there's a lot of people outside in the cold right now and that, and, and I, and I personally I would love to do something about it because I'm not inhumane. I mean, I just we just need to figure out a, a system where it does not affect the, as far as the government shouldn't be involved in these things. Really. But there is gonna be a transition period where we're gonna need to show people because actually once the republic takes over, actually most of this will all go away all by itself, mostly. Only because there will be jobs, there will be things, there will be community

b6  
b7C

involvement, there will be things coming that we don't see right this second. But there's like, everything I've been listening to there is gonna be, from what I've been told, it's gonna be about at three year transitional period. It could be five.

Alright.

I'm not saying so..ah, you're, you're saying that I'm totally is not..

It's not what I'm saying, just let's be, wait let's be pragmatic..

(UI)

..for a minute and I'm just gonna complete like, like my thought from before, cause my thoughts from before are actually have a rosy ending (noises) okay, we, but for the time being we have to take care of these people, we do what we have to do, but after the transition takes place, let's say you have family now that don't have a mortgage, actually got a stipend out of their house, aren't paying IRS tax, are they better suited to take care of their parents now than the government? And I am asking you a question. I think so. So I think as time goes on. People will realize that and see that in themselves. There's many families..

UM:

(UI)

..out there who take mom and dad or take mom who's too elderly or infirm and stuff like that and put her in places a, or ah, give her to the government okay because they're working two jobs. Mom and dad are working. Remember back in the nineteen fifties, dad worked, mom was home? Two kids, three kids. Two point three kids, the whole bit. Okay mom took care of all the kids, cooked, vacuumed, all the dinner on the table, okay, that's gone in our society because we have a, a society now of two, two working parents, kids with turn key operations as they come home to an empty house and wait for mom to get home from that, that job or dad to get home from that job. People like um Senator [redacted] who him and his

b6  
b7C

b6  
b7C

b6  
b7C

wife have to set up a system so that he has to he has to work at night and come home and be home during the day with enough time to pick up his children if he wants to take care of his children and not give them over to a day care or a nanny or something like that but it's still...

That's what the de facto is created and they've done it on purpose.

b6  
b7C

UM:

Yes I know. So they...

Yeah de facto..

Yeah you know there is gonna be a transition period, there's absolutely gonna be a transition period.

b6  
b7C

UM:

Are you asking me...

But like what I'm saying is, what I'm saying is the fundamentals that we're setting now, okay, with, if you take away, if you put twenty or thirty percent back in people's pockets, you um, you keep that money for people that have a disposable income, they're gonna spend more money, creates more jobs, more stores, the more stores, the better selling things, the more goods that need to be put in the store, it's those goods have to be transported to the store, okay, that's more jobs, now...

b6  
b7C

Yeah.

..let's, what's next they have to manufactured...

Yeah..

We could actually get back into it and it's tough to be talking about manufacturing jobs. Okay right now people who are fifty and fifties, sixties, seventies, and there's a lot of people in their sixties and seventies that actually wanna work. Don't wanna be on a social security but, but they go out to look for a job, they're just told no. But it there's a lot of work out there and these peep, people show themselves as competent to be able to do that job, more than likely that's the next thing,

you, you'll be seeing more people working. Now with the new medical ah, ah let, let's say with advancements in medicine ah, our understanding now with nutrition, health, things like that people are gonna live a, a longer, and, and they know that right because they've been raising that, that um ceiling on the ah social security.

b6  
b7C

UM: Well they want to take it that ah so..

UM: There's another point it's ah..

UM: (UI)

[REDACTED] (UI) it's called the executor stuff, we all have money, everyone of us, every American citizen has money, and it, it..

UM: (UI)

[REDACTED] ..there's more than just me looking into accessing it and there is very few in the republic that have figured out how to access it which I'm sure will become more public knowledge as time goes on. So I don't think that's gonna be even you know that's gonna be less of a problem as we go on, as we get into the republic because there is, everybody has a trust. Everybody has money.

b6  
b7C

UM: Yeah (UI)

[REDACTED] Yeah in the United States Corporation has just taken it away from everybody and made it unaccessible to them and they've created these welfare systems so they could bring somebody into the welfare system and they could access their estate to take care of them, it's not the corporation taking of care of them, it's they're own estate taking care of them..

b6  
b7C

UM: Thank you.

[REDACTED] my, my I appreciate you because what you, you what you, you really are it, it's kind of like the two opposing pole of magnets. Okay we need to hear from you, from people and I, and I, I, I encourage debate and it's people like you who have

b6  
b7C

to keep the rest of us from sliding back into the, the that whole scale welfare system. Okay. Absolutely I totally agree with you but I, I, hey look, if you guys, when we, if we do take over and I'm governor and you want me to be with the bad guys and stand there and tell all of these old people, you're out, disabled, you're out, (UI) you're out. There's no more money for you, or there's no money for you.

UM: But everybody does have money.

UM: I think [redacted] (UI)

b6  
b7C

UM: Actually [redacted] just explained it perfectly.

UM: Right.

UM: She just summed it.

UM: But we have yeah, we have to..

UM: Right.

UM: ..we have this transitional period to teach them how to access that. That's what we need.

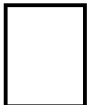

b6  
b7C

UM: Yeah I already..

UM: That's right.

UM: I, I said that. I said that, I said I would, I wouldn't throw any, personally I, I don't have the heart to throw anybody under the bus, if you, if any one of you, anybody you have to tell ten people come to my house right now that I don't have a place to live, you'd be more than welcome at my house.

UM: Right it's just..but..

Right that's right yeah [redacted] I absolutely agree with you that the welfare system shouldn't be. Everybody should be responsible for themselves. Everybody should be responsible to their families. Everybody should be responsible for their neighbors and their communities that, that thrive. That's what we do

b6  
b7C

have to get back to. I absolutely agree with you but the, I, all is I'm saying is there's going to be a transition period and we do have the money. It, the money's there, it's all a matter of accessing it. For everybody. You know but there is gonna be a transition period. I wouldn't, I would never ah, you know I would give my last dime for somebody that was elderly that couldn't afford heat to put oil in their tank, you know.

UM:

Well I I feel the same way (UI)

b6  
b7C

I wanted (UI)

UM:

See, see but that's it, most it, what, what I was bringing up, I wasn't bringing up that I'm saying that some of the things that we are talking about are de facto, they're, they're un, a lot of these things are unconstitutional, yes I understand that there's a transitional period and we're gonna, there's gonna have to be a lot of learning by a lot of people. Well..

UM:

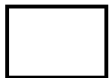

Well what's unconstitutional.  no, be, be, give us a couple of specifics, please.

b6  
b7C

Ah, okay well healthcare for example. We were talking about healthcare for the re, for officials to the republic. That does not benefit everybody. That only benefits re, the a, the, the officials, okay, well I've, I've actually talked to a couple of the officials about this, it is unconstitutional because in order to have a constitutional system, a republican system, it has to benefit everybody, not just a certain few, and just like you...

b6  
b7C

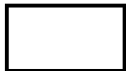

Can I ask...

b6  
b7C

UM:

Let me (UI)

b6  
b7C

Can I just..

UM:

Let me ask..

..for for one minute? Um, from what I was told ah as far as  had been talking about is

b6  
b7C

everybody would have healthcare, it wouldn't be just us. I mean well..

(UI) on the call when we were discussing healthcare for just the officials in New York.

b6  
b7C

Yes I mean...

Okay.

..there might be some (UI)

UM:

(UI)

..you know..

b6  
b7C

UM:

Go ahead. Go ahead.

It, there might be some misunderstand I don't know maybe I misunderstood it, maybe [REDACTED] I, I, well whoever was speaking but from what I understood from [REDACTED] everybody in the republic was gonna get ah means of healthcare. They would have access to health, hospital, dental, you know anything that they would need health wise. You know I could be wrong but that's what I heard when you know when I was listening to them..

b6  
b7C

Yeah well, yeah but it's gonna have to be paid for..

You're right [REDACTED]

b6  
b7C

...it's gonna have to be paid for [REDACTED] and ah, that's why I'm saying there's a line item in there in the budget for it. Now I'm talking about officials like you gotta remember when somebody comes to us for a job, they join the republic, they're gonna get healthcare..

Yeah.

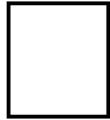

b6  
b7C

UM:

Is this gonna be on a massive scale throughout the whole entire country?

I, I guess so.

b6  
b7C

Well I would assume cause most places where you work you get, you know you do get healthcare benefits. What I heard, what [REDACTED] was talking about you know we would be paying four or five hundred dollars a year and we would have this ah million dollar umbrella over us.

b6  
b7C  
b6  
b7C

UM:

Right.

And it would cover healthcare, if you got in a car accident, you know it covered your house if it burned down, it covers everything.

b6  
b7C

UM:

Yeah well we..

That's where I understand (UI)

b6  
b7C

UM:

What we're paying now is what (UI)

Yeah you would be basically insured for everything which is I know they're working on, I know that's one of the major things that they're working on to get people..

b6  
b7C

UM:

(UI)

..you know, that to be able to...

b6  
b7C

UM:

But they're..

.. have healthcare.

b6  
b7C

UM:

They, they talk about this a year ago.

Yeah I heard...

b6  
b7C

UM:

(UI)

..another discussion yeah, a year ago and then I heard another discussion about, I don't four or five, six months ago too.

b6  
b7C

UM:

Right. And basically what they're gonna do is it'll be an umbrella policy and if you take everything and you lump what you're paying now, you'd only be paying thirty percent.

Yep.

b6  
b7C

UM: And you, everything.

UM: Right,  that's what I said (UI)

b6  
b7C

UM: Once again you gotta be in the republic..

UM: (UI)

UM: ..you gotta be part of the republic to, to reap those benefits.

Yes.

b6  
b7C

UM: Well that's why...

UM: Yeah.

UM: ..I was trying to explain..

UM: Yep. True.

UM: ..to you (UI)

UM: Let me just add, I just wanna add one thing to this, to this, this cause um, I'm disabled and ah I wanna be a school teacher. Alright but for me to be a teacher now, I have to have a you know the de facto, you have to have a certificate. I, I taught all my life but you know now being part of the republic, you know being chief justice, I don't need to be on ah you know a disabled, get a disabled check any more. I filled a position. I get, now I got a job.

UM: Exactly.

UM: Okay. I wanna teach. I, I mean I don't, didn't wanna be disabled. I had to go on disabled so I could to be re-educated so I could be a teacher. But I'm already a teacher. It's just because of the de facto. Once we get our system up and running. It'll all fall back in place the way it used to be.

UM: So...

UM: So we do this from minute one. Ah these are great questions. I think the congressmen. Have you guys been debating this stuff in congress? Because remember I can only do what I'm told to do that's why I was ex, ex...

UM: Well well see that's another problem I have..

[REDACTED]

(IA)

b6  
b7C

UM: Alright because the..

UM: But I listen..

UM: ..see you're being told by part the governors as to what they're doing and you're being told what to do, and it's not actually their job to tell you what to do, it's the our, it's New York's congress that is..

UM: Okay the governor's..

UM: ...their job to tell you what to do.

UM: The governor's are not telling me. It's not the governors, it's not the governors, in that budget, in that budget what I should have said there is a you know items in there that are, that are where there's supposed to be money put aside for healthcare, now I, you what you said to me was you think, ah ah that that I guess we thought it was just for people with jobs. [REDACTED] and everybody else seems to think that it's going to be for everybody.

b6  
b7C

UM: Well everybody is paying something for insurance for their car, for their house. For whatever. So what's gonna happen is, if you (UI)

UM: I've got (UI)

[REDACTED]

I'm not paying for, for anything.

b6  
b7C

UM: It's only gonna be thirty percent of what you were paying before and it'll cover everything.

[REDACTED] Yeah that was something that came up. That [REDACTED] (PH) had talked about [REDACTED]

b6  
b7C

Okay.

b6  
b7C

But I mean what ah as you know as a job boys I would assume there would be some kind of health benefits included in that anyway but I, I mean eventually everybody's gonna end up paying for this umbrella policy.

UM: Yes I will.

(pause)

[REDACTED] But like you know, like we've both just said it's gonna be a transition period. There is gonna be a transition period where certain things are gonna be in effect, certain things are not and then you know later, there's gonna be more in effect, you know everything's gotta fall together.

b6  
b7C

(pause)

UM: One step at a time.

UM: Yeah but see...

UM: Exactly.

UM: ...see the problem is the problem I'm having though is and, and there are quite a few people that I've, I've been listening to all the calls, I've been listening to congress calls, there is, we have to remember because we are the republic that we gotta, we gotta remember to look at things on a constitutional level as well I'm not saying, I'm not talking about this transition period. I'm talking after the trans, we're talking three to five years up the road after the republic takes over.

UM: I just think..

UM: (UI)

UM: And you know things are gonna be, yeah things we have to remember is this, what we're after, if we want this to succeed, is not to do what the de facto did. We need to stay right the hell away from that because I mean because everybody loses in the end. I'm not a fan, I'm no, I'm nobody for, I'm not even I don't even like to be involved because I'm too kind hearted. I, I've offered big positions but I'm not, but they wanted me to be an asshole and I couldn't, and that, and and I was turned down for big jobs because I couldn't be an asshole. I, I do things diplomatically. I don't wanna, I don't wanna argue with ya. I don't wanna tell ya you ah have you how you you know because unless you're involved they'll treat you like a little kid, you don't know what you're doing. Well, I know what I'm doing I, I studied all my material, I know my material, I know exactly what I'm doing. You don't have to yell at me to make me do something. Come over to me yeah you're not doing this right, do it this way, well I like to be diplomatic. So when I, when I try to tell people things sometimes I do get carried away and there's a lot of people sometimes people mistake what I'm trying to say up front and I get, and I do get that quite a bit. But I'm I but we, when we do things we really, really have to do a little research, we are, do our own due diligence.

UM: (UI)

UM: We have to understand what we're doing. It, I don't care what job you have, I don't care what role you play. We all have to do things and look at it in a, on a constitutional level because at it, we're gonna, we're, we'll I'm sure we're being looked at very hard. And it you know by everybody, not just there are, there are thousands of people waiting to join the republic, ah for this to be up on line. I, I, I got, I got a hundred people down here but they wanna see this to be true and you know they want this they wanna make sure that they're not gonna get thrown in jail because that they're some terrorist or some crap and I told them it's not.

UM: Yeah but I..

UM: Yeah just I wanted..

UM: Go ahead.

[ ] No I'm saying you're right.

UM: (UI)

[ ] Yeah that is, there's just a lot that has to be worked out. You know and all of us I think we're all in this for the right reasons and what you wanna do is the right thing for everybody.

UM: Correct.

UM: And it takes all, and it takes all of us to keep us all in line.

UM: That's right.

[ ] Exactly.

UM: That's ah..

[ ] You have it, exactly everybody, I mean as [ ] said you know what sometimes people are seeing things in a certain way and other people's bring, other people bring light on to that. So that's what it's all about.

Yeah, listen, can I, can I just make a a (UI) here, everybody's it, everybody's got um, very good thoughts and opinions here and this is very very helpful debate and we have to have this because dissenting, even dissenting opinions but I'll tell you what there is one thing okay, we can't make changes from without like let, let's say you were to resign right now. I don't like what's going on in Congress. I'm resigning. Is you are you gonna go into congress and make any changes? No. You've just walked away from the one chance you had at making a change. As a congressman and the senators, go back to the beginning calls when we first started this whole thing, I kept imploring you guys as senators and congressman that you have to make the changes, it's up to you, you're the legislators, it's up to

b6  
b7C

b6  
b7C

b6  
b7C

b6  
b7C

b6  
b7C

you to make the change. Now [ ] and I can have all the opinions we want..

b6  
b7c

UM: (UI)

And as much as you wanna think that [ ] has the you know you can make the decision or the choice, I can't, you guys have that power the legislators have the power so it's very, very important and that and you see this debate we had tonight for like [ ] write down everything that we..

b6  
b7c

UM: Yeah.

..we talked about tonight. Look it over put, put your thoughts together and then when you have time in congress or in a committee or something like that. I think that there's a committee on ah, social services, welfare, all that whole thing, I mean they're going to desperately need people to keep them in line because...

b6  
b7c

UM: (UI)

..compassionate people and because the fact that even though we're in the republic most people are de facto and I myself have to get over that, that, that just like anybody else, I have to get past it my indoctrination into the de facto system. They're going to need dissenting voices in there to explain wait a second, we can't just give everything away. But at the same time we can't throw the baby out with the bath water.

b6  
b7c

UM: Yeah.

There it's, there's this fine line we're walking right now and we, we're walking towards what? Cause a republic form a system?

b6  
b7c

UM: Yeah.

You wanna call it a utopian form a system? A, a system where you know...

b6  
b7c

UM: Yeah.

[REDACTED]

..we learn how to take care of each other and stuff.  
I'm all for it. I'm all for it.

b6  
b7C

UM: (UI)

UM: (UI)

[REDACTED]

You guys are my legislators and the only thing I can  
implore..

b6  
b7C

UM: I guess..

[REDACTED]

..you to do is to, is to do your job in that, in  
time to do have an opinion, make (UI)

b6  
b7C

UM: (UI)

[REDACTED]

Now I'll tell you what if you decide it's too much  
for you and you walk away from it, and you say I'm  
resigning, I'm not gonna have anything to do with it  
because I don't like the way things are going, well  
then how is that gonna ever change.

b6  
b7C

UM: Well [REDACTED] since your talking about...

b6  
b7C

[REDACTED]

So..

..resignations I'm, I assume you're talking about me  
cause I'm the only one to do that..

b6  
b7C

No no I'm talking about anybody. Anybody.

No I'm the only one that resigned [REDACTED]

b6  
b7C

Anybody! Anybody! Well look look [REDACTED] if the shoe  
(UI)

And if you would just hush a moment, I will explain  
to you...

(UI)

..why it makes a difference.

That's not what I'm talking about [REDACTED] If the  
shoe fits wear it, don't tell me! Don't tell me!

b6  
b7C

Don't tell me, you, you're the one who said that's what...

You know you don't listen very much [REDACTED]

b6  
b7C

(UI) the way things are going.

For a servant of the people.

(UI)

You don't listen very much at all. You just holler and rant.

Right! That's what I'm doing. I'm hollering and ranting.

b6  
b7C

You do. That's correct!

UM:

(UI)

Right that's correct. I didn't resign. I didn't ah I didn't say...

That's..unfortunate.

...that (UI) what is, what is too much, I didn't say that I need to like everything that was going on, do you think I like everything that is going on

b6  
b7C

You think I like everything's that going!

b6  
b7C

UM:

[REDACTED] would you just (UI)

UM:

(UI) we have...

There's plenty of stuff that I don't, don't like is going on and it's but resigning...

b6  
b7C

UM:

(UI)

..resigning just (UI)

b6  
b7C

[REDACTED] You just ah, you just offered your job away. Not even an hour ago. Is there anybody else up, up to do doing my job? But you know...

b6  
b7C

You know you just (UI)

Now what's, so what's, so what's, so let's step up to the plate though. Someone stepped up to the plate though.

(UI) my job I'm still here. I'm on every phone call! Every phone call! And I (UI)

And...

..wait I am too.

(noises)

UM: You know..

UM: Yeah but don't, don't, don't..

[REDACTED] (UI)

b6  
b7C

UM: ...bash, you're bashing people [REDACTED] you're bashing people.

b6  
b7C

[REDACTED] (UI) to people.

b6  
b7C

UM: You know (UI)

UM: See you don't (UI) listen [REDACTED].

b6  
b7C

[REDACTED] (UI)

b6  
b7C

UM: Listen [REDACTED] You just said anybody who wants my job. That's what you said [REDACTED] That's a quote. You said that.

b6  
b7C

[REDACTED] Okay.

b6  
b7C

UM: Does anyone of you guys wanna do my job?

[REDACTED] (UI)

b6  
b7C

336S-NY-306636 09/14/2011

UM: Exactly what you`said. [REDACTED]

[REDACTED] (UI)

b6  
b7C

UM: I have the floor [REDACTED]

[REDACTED] (UI)

b6  
b7C

UM: [REDACTED] I have the floor.

b6  
b7C

UM: Oh gee!

UM: Okay this is another part of your problem is you jump over everybody. Okay. You did say that.

UM: (UI)

UM: And [REDACTED] said it that he would be honored to take that position.

b6  
b7C

UM: (makes noise)

UM: Okay? The way you said it.

UM: (UI)

b6  
b7C

UM: To me I took it as criticism. Like no one could do my job.

UM: (UI)

UM: So I'm gonna put it out there and see if anyone will take it.

[REDACTED] (UI) I said. That's not what I said.

b6  
b7C

UM: Explain.

[REDACTED] (UI)

b6  
b7C

UM: It's the way you put it out there [REDACTED]

b6  
b7C

[REDACTED] (UI)

UM: It's the way you put it out there.

b6  
b7C

It's called being facetious.

b6  
b7C

UM: That's exactly the problem.

Okay, being facetious. It's just like they could talk like that..

b6  
b7C

UM: Well I need to (UI)

(UI) job is easy, anybody wanna do sixty hours a week?

b6  
b7C

UM: I mean if it takes a hundred hours a week, I'll do it.

UM: Yeah, no they told me that by the way you should work for sixty thousand bucks..

UM: (UI)

UM: ...or fifty thousand or forty thousand..

UM: (UI)

UM: If, if it's gonna make a difference..

UM: (UI)

UM: I'll do it for nothing.

UM: (UI)

UM: Yeah (UI)

(UI) Excuse me!?

b6  
b7C

UM: I just said if it would make a difference I would do it for nothing. If it's gonna make my kid's life better.

UM: (UI) for nothing.

UM: I would do it for nothing

But  I am doing it for nothing and you are doing it for nothing. And I'm only getting promises.

b6  
b7C

UM: You're absolutely right.

b6  
b7C

The only I got is promises.

UM: (UI)

I don't have a dime on the table. I don't have a penny on the table. In fact, I can guarantee you, all the money that's come out of my pocket is ah is most people in the republic cause of what I have to do is..

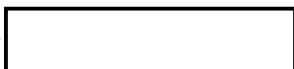

b6  
b7C

UM: See I'm already across the street.

UM: Alright.

UM: (UI) from this..

UM: Um, anyway

b6  
b7C

UM: (UI)

UM: ..did you wanna ah say what you...

UM: Cape Fear,

b6  
b7C

UM: ..have to say.

UM: (laughs)

Oh sure it's, it's, now...

b6  
b7C

UM: He certainly (UI)

..I resigned from the senate because I was on several committees and I was spending a lot of times on calls. I was getting more busy right here in Oneidaga (PH) County and surrounding counties and it was, was taking too much time where there was nothing being done. There was no room for alright, it said, I was gonna say I voted no on things that I didn't think were constitutional. I brought up issues when I had where is an opportunity to bring up issues. A lot of those calls didn't offer that and the committee calls were all about for the last six weeks or so the budget and what's going on in

b6  
b7C

congress, it, it was very unproductive.. So I said, figured I'd concentrate on what I can do.

(UI) and I, and I'm not gonna be...

b6  
b7C

Oh yeah.

..and, and my point [ ] is how does that bring changes?

b6  
b7C

UM:

(UI)

The only way my New York Senator should get his point out..

b6  
b7C

First of all [ ] I am not your New York Senator.

b6  
b7C

(UI)

You got that all wrong. I represent the people.

(UI)

I was not serving the people.

UM:

Oh. Oh..

I wasn't in a position to serve the people. Ah there weren't even any people..

b6  
b7C

UM:

(UI)

And those that were out here were not able to voice anything in congress. We were just working on other stuff all the time.

b6  
b7C

(noises)

UM:

(UI)

So how do we make changes than ah [ ] My, that's my point. If I knew (UI)

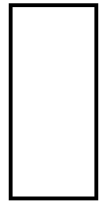

b6  
b7C

At the ground, this is supposed to be bottom up.

(UI)

b6  
b7C

It means building the base. That's what I'm doing.

b6  
b7C

Oh okay.

That's what I'm working with.

UM:

What is that?

And it also takes education. That's what I'm doing here. It starts in about two minutes. I thought it was at nine but it's at nine thirty but I'm taking another constitution class and I'm teach, and I'm passing on information to other people.

b6  
b7C

UM:

Yeah.

And I'm working with people on their, on their today problems.

b6  
b7C

Alright now, in the budget there is a position for exactly what you want to do. Exactly what you wanna do [REDACTED] If that's what you wanna do and if you're gonna say to me okay, look [REDACTED] the, the senate job I, I obviously was a a a little frustrating to you because of the way things were going. Okay and I'm not, and it's not that I wanna call you a quitter or something like that. I'm just my point is we can't get anything done unless we have people making mistakes, so if you'd rather do what you're talking about, when you see...

b6  
b7C

UM:

(UI)

..and we'll make it, make it so that you can see there are a few positions...

b6  
b7C

UM:

(UI)

..for these, ah it one of these is called officials education and there was membership education I believe..

b6  
b7C

UM:

(UI)

Ah, I have to go, ah I have to go through it again.

b6  
b7C

UM: (UI)

b6  
b7C

[REDACTED] But it, and, and it's coming back to me, there are a few positions for exactly what it is that you want to do and you, you what you'll be able to do is continue what you're doing getting education, and then reeducating the rest of us at all times. All the officials will have to, will, will have to attend classes. Any new membership, new people, new officials will have to attend these type, type of things and you, your, you can do that if you want. So (UI)

[REDACTED] I am doing that. I don't, I don't need a title to do that.

b6  
b7C

Um, as, as far as what they consider in the republic, you can do it on your own but you wouldn't wanna do it for us? For the, for ah, for us, ah with the officials and other people?

UM: Right.

[REDACTED] And then (UI)

Sure, sure [REDACTED] I'd, I'd do that too.

b6  
b7C

UM: (UI)

[REDACTED] (UI) your title. (UI) I'm sorry, I'm sorry that they didn't, we'll call it the (UI) or something I don't know [REDACTED] but come on. That's it, we're, we're talking about semantics here. A title or no title with something. Are you saying you wanna do it and not get paid? Give the money back. Give the money back (UI)

b6  
b7C

You know ah, I'll, I'll give back all I have received, [REDACTED] Ah, you can have all that I got you know. Twice that if you want.

b6  
b7C

(UI) the same with me but I'm telling you in this, in this the upcoming thing there are, there are places for people...

UM: (UI)

And, and if that's what you wanna do...

b6  
b7C

UM:

(UI)

And that's what you wanna concentrate on now, then that's what we'll have to do, we'll have to find somebody else who can put up with the frustrations in the senate. I mean ah, a [redacted] talks to me all the time and tells me his frustration with the senate about stuff getting done or not getting done.

b6  
b7C

UM:

(UI)

Believe me he's not a, a call, call happy.

UM:

(UI)

b6  
b7C

And for once I wasn't happy at what, what was going on with governor's call and many of the other governor's expressed it and lots of changes have been taking place. I told you the many things...

UM:

(UI)

...(UI) talk have been amazing..

UM:

(UI)

b6  
b7C

Because the amount of change that's going on is amaze is incredible. Things are getting done now. We're on the precipice. We don't need to breed membership. We need to just move forward.

UM:

(UI)

I would much rather you just remained a senator but if you want to go into this, this, this other field of endeavor, we have that field, that field is coming up. You'll have a, you'll have a forum for what you wanna do.

b6  
b7C

UM:

(UI) again you have to see (UI)

I have no problem nominating, you get, nominating you into those position or you can just apply, they might even not even be nominating positions, they're

just application positions. It's not like you even get voted in. You're just are, what you are.

UM: That's what I said.

b6  
b7C

We can (UI)

UM: Okay,  may I have your attention for just a moment.

b6  
b7C

Go ahead. Ah, ah..

b6  
b7C

UM: As far as I understand the republic.

UM: Okay.

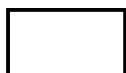

UM: It takes people who are willing to...

UM: (UI)

UM: ..share their knowledge, share their homes, share their wealth with other people...

UM: (UI) And I know they're talking (UI)

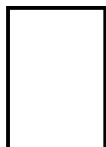

UM: ..to get along in a republic. Not to look to the government for...

Mmm hmm. That's right.

b6  
b7C

UM: ...them to take care of you.

(UI)

Now I, I do that, I do that I look out for my neighbors, I look out for my family. And I try to educate my family...

b6  
b7C

UM: (UI)

...some people are willing to listen, some aren't. I would, I mean,  has set up an excellent forum on, on ah, the web here.

b6  
b7C

UM: (UI)

[redacted] That I'm trying to contribute to and get people involved in. Now that's you know, that's what I'm working on is building the republic here in New York. If a position comes up like that, that you know I'm like I'm in in a position to take ca, advantage of, fine ah you know like that may happen.

b6  
b7C

[redacted] (IA)

[redacted] But the senate calls were and the committee calls were getting...

b6  
b7C

UM: (UI)

[redacted] ..you're right again they got to be overboard for me.

b6  
b7C

UM: And hopefully (UI)

[redacted] So you, you need another senator.

b6  
b7C

UM: (UI) constitution is trying to vote for (UI)

[redacted] My other class has started so I'm, I'm gonna be leaving the call again but I will respond to them, it's being recorded I can pick up the rest of it later. Thank you for your time.

b6  
b7C

UM: Take care [redacted]

UM: Thank you [redacted]

b6  
b7C

UM: Thanks [redacted]

[redacted] (UI)

UM: (UI)

b6  
b7C

[redacted] I had come to you (UI) education maybe and, and perhaps we can do (UI) the other, the other classes. That's all.

b6  
b7C

(pause)

b6  
b7C

[redacted] Everybody understand this and I wasn't picking on [redacted] I'm picking on all of us.

b6  
b7C

[REDACTED] (laughs)

b6  
b7C

Because if we all, we, we all have to decide, now [REDACTED] didn't quit, okay, [REDACTED] is just is moving on to another endeavor. Okay. I'll, I'll acknowledge that. Okay. If you, if you what is going on in the senate I, I, I guess was frustrating to him and it didn't, doesn't appeal to him anymore. Okay so he's gonna take on another endeavor. But they should offer it, a lot, a lot of people in the other republics that are just walking away. I have other governor's telling me about attorney generals that are, are, are quitting, senators are quitting, congressman are a quit, quitting, secretary of states that are quitting. Just quitting and walking away and not having anything to do with the republic whatsoever. We can't get anything done that way.

(noises)

[REDACTED] Yeah (UI) done listening to (UI)

So my frustration that's what I'm talking about. I'm just making an example and if I tell you about, about doing my job I'm being facetious.

b6  
b7C

Alright here well I, I can't see the answer to some of that. Some of that is we, it you, you the okay when I actually got in here and I started listening back in oh I don't know October, November I've been watching the republic for a long time, people are actually joining it, well back in January ah, we got a phone call actually I think it was from (UI) at the time, me and my brother. He, he was sitting there, we've got a, you got a hundred thousand dollar a year position, you're gonna get paid, and everybody keeps being told they're gonna get paid, well, a lot of people are walking away because we're, our, actually I'm in a very, ah, ah and I'm sure I'm not the only one that's in a very bad financial position. It's very difficult to keep up when you, when you're in survival mode and, and I know quite a few people I've listened to that are actually right now on this call are struggling. It's not easy I mean and then everybody keeps saying well funding will be here next month. Your funding will

be here next month. Funding will be here in a couple months, funding will be here next week. You, you get, well you get tired of this and a lot of people want I, I'll tell ya I'll be honest with ya I wanted resign twice, but I haven't because then, then I'm, I'm I'm almost doing exactly what you said. No, nobody's going anywhere. If you don't, if you, I stuck this out because I think there's just the idea is correct. We have to come together as a group of people who understand what's going on but at the same time we have to take care of our own families and what we can do to survive. You just, it just, it's, it's really difficult because I've actually look, in the last month, I've lacked on my research because I'm in survival mode.

(UI)

I'm, I'm beyond that actually. And I've just so happened that somebody had, one of my family members helped me out today that that so my phone's actually on today.

(noises)

So I, I mean this is a problem everybody's having, everybody's in a very financial....boat that you, everybody keeps promising oh yeah, funding will be here, funding will be, oh I'm sure it's close and I know this isn't, this is not an overnight task but and, and it's very, but it is, it is difficult I'm sure it is for everybody.

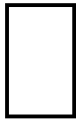

Listen it is appears that (UI)

(UI)

You know what, what can I say. I mean everybody understands what's going but some people just can't hang on for financial reasons. And I mean, and to be honest with ya I'm surprised I'm not homeless and non valectic (PH) right now, I don't know how I'm hanging on but I am.

(noises)

b6  
b7c

All by the grace of God. That's the only thing I can come up with. Because I'm in the same position. All by the grace of God.

b6  
b7C

UM:

Yeah.

I'm, I'm selling possessions, I'm, I'm doing everything I can and doing odd jobs just out there trying to just get it done. Just like you know, you know I think like most other people here. So you're right I can't blame somebody if they leave. We're bleeding and but the republic is bleeding people right now. Now there are states, some states that have said oh we're, we're gaining membership and I told them God bless ya.

b6  
b7C

(tones)

Well alright so..

b6  
b7C

This is, excuse me this is .

UM:

(UI)

b6  
b7C

Go ahead 

I just wanted to ask along with that ah, there is a question still that people wanna know who the funders are and when will we find out who they are and if there's anything to be owed to them in the way of interest and..

b6  
b7C

Alright, I, I can answer..

..in that...

..those questions now.

That's..

I can 

I'm, I'm just saying though that along with waiting for the funding and having it always putting out that much further away um, who they are and well how we're going to pay them back if that's the case has

b6  
b7C

never really been um, revealed, if it can't be revealed now, then when would we learn who they are.

UM: (UI)

UM: (UI) answer your question..

b6  
b7C

Ah, I can answer some of those questions now because I, I have been made the privilege to, to some of those answer..

(UI) yeah I saw...

b6  
b7C

Okay, so would you like me to, to, to you know reiterate now?

Sure.

UM:

b6  
b7C

Well..

Yes.

Okay. Okay. The funders, okay, the way I understand it and I think [redacted] um, has done some research on this too as well. The funders are part of this...

b6  
b7C

(coughs)

(whispering but IA)

...(UI) of (UI) their families is the way it, it, it and, and financial bankers. Um, you're not gonna get away from the fact that we're gonna have to get money from somewhere and the fact that there's certain people that have it and certain people that don't..

UM: Well (UI)

We're the don't and they're the have.

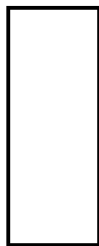

b6  
b7C

UM: Well..

Okay, we're the have not.

b6  
b7C

UM: Yeah so. Oh...

Well, what [redacted] (PH) has procured though is part of a trust...

b6  
b7C

(IA) he's coming to you.

...okay, it's ah..

UM: Yeah..

...ah trustee, it's part of his trust ah, which has been put out there and I think that um, was it [redacted] before that was, was ah trying to explain, or somebody that, I think it was [redacted] that was saying stuff about ah, that you know where the, you know that...

b6  
b7C

UM: (UI) that was (UI)

Yeah prosperity fund and stuff like that and where they coming from. Now..

b6  
b7C

UM: Yeah.

Some of the funds..

b6  
b7C

UM: Yeah that was me.

..and some of the money will be paid back. Yes it will [redacted] How's it gonna be, be, be being paid back?

b6  
b7C

UM: (UI)

Well it's going to be paid back just like it, it, it's being paid back now.

b6  
b7C

UM: Yeah.

Although you're not going to have a system that is with the IRS and stuff like that where you're bleeding people and bleeding them until they have nothing. Okay. A lot of the money is going to be returned through this collateralization. Okay. Of the wealth of the ah, ah of the of America..

b6  
b7C

UM: Yeah.

b6  
b7C

Okay and like I said before the collateral, the the collateralization is not something easy, there is a bit of fractional banking involved...

UM: (UI)

..in it. Okay. Ah it's not so easy to understand. Some of them will be granted to them, okay but yes, some of the money is gon, you know going to have to be repaid..

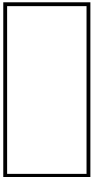

b6  
b7C

UM: (UI)

Now are the states responsible ah to, to pay the back? I would assume so because what else is in the union? The only thing that's in the union is the states. Okay. So it'll be...it'll be very, very, very um, ah, incumbent up, upon the ah, the congressman and senators to make sure that the amount of money that's spent, how it's spent and stuff becomes ah, that they become ah, ah ah responsible of about it. Um, just like anything else there is no real free lunch. Now for the first couple of years, remember this for the first couple of years, the way I'm it's, it's explained to me, we will be funded but after that this is supposed to become a self perpetuating system. The economists have been working it out. These people are in the, in these ah um, ah in, in these ah new faction of bankers have realized that using the old system is just gonna crush the world. Okay, the, the whole entire planet.

b6  
b7C

(UI)

b6  
b7C

You crush the United States. The rest of the country is just gonna fail...

UM: Yeah.

...ah be, behind it, you can crush crush Europe right now...

b6  
b7C

UM: (UI)

...the whole rest of the world will be probably take a hit from that. Okay so what they're ah proposing is a self perpetuating system. Um, one where that if you're not paying this all this money through the IRS you're not bleeding that. We should be able to make enough money through things like general taxes like the...

b6  
b7C

UM:

What...

...founding fathers had proposed into our ex, ah ex, export taxes...

b6  
b7C

UM:

Yeah.

..excise taxes, things like that. You might have some sales tax to get, to keep things going, okay but these will be um, taxes that...

b6  
b7C

UM:

(UI)

...are not going to be ah, um burdensome and especially if you're the congressman and senators are gonna have to make sure of that and to hold everybody to their word. Okay. Ah, about how it's gonna, ah how it's gonna be done. Um, right now, ah, the budget's for I think for um, the whole entire ah, year is only, and I say only, um, it's a little bit over a billion dollars.

b6  
b7C

UM:

Yeah.

Which we're not going to be accumulating in the first three years as a republic, we're not going to be accumulating that much debt. Not like trillions, like we're talking about, okay? We're probably talking about ah, ah um, billions, I would say you know in the first three years somewhere in the realm of five billion dollars?

b6  
b7C

UM:

(UI)

Is the way it seems to me but as people join the republic and things get collateralized, we start um taking more ah, ah getting more um, a money created

b6  
b7C

and ah we get our own monetary systems and things start to work.

b6  
b7C

UM:

Oh.

Um, I think um, it's, it's not going to be a burden to ah, to pay the money back. Um...

(noises)

Still there

b6  
b7C

UM:

Yeah.

I think we lost him.

b6  
b7C

(noises)

Everybody I'm sor...I'm sorry

b6  
b7C

Yep.

b6  
b7C

Yes.

Okay, I apologize that I don't look I gotta get, I gotta up to speed more on the economy part of this, um, the reason why I'm sometimes almost wanting to say what I think is going on is because I'm not an economist, okay, and if I say the wrong thing to you guys then I, I think that I'm, I'm gonna be held responsible, people are gonna be telling me oh this is what you said five minutes ago, you know what I mean and and believe me I don't wanna do that but ah, this is a generalization of what I understand is gonna go on. We are supposed to be creating a self perpetuating system. This is why things like the welfare systems ah you're um, your, your healthcare systems, the social security and stuff like that, it's all being worked out right now, um, I apologize that I'm not in, ah more informed as far as the ah, the actual mechanics and workings of them are but um, I think maybe we need to get somebody on one of our calls to answer more of these questions and cause if there's anybody out there that can

recommend somebody, and I'll, and I'll ask the governor's if there's anybody that can recommend to me um, ah, to, to give ah, give us a little more of the ah, ah the, the mechanics the of the workings of ah, of exactly how all of this is going to um, ah to go down, but understand this the strict the way um ah it's explained to me there's two factions out there in the ah, in the government, okay. I mean ah in the, in the world. And one of them is a faction of people who want a new world order. They wanna see us fail. That's all they care about is that we, the United States, United States of America, whatever you wanna call it, fail and they turn us into oh I, I guess like you'll basically say revelations, turn us into a slave nation, ah ah new world order of one world government type of place where they do have FEMA camps and ah...

b6  
b7C

UM:

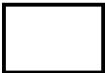

(UI)

Huh?

UM:

Third world (UI)

Well third world but yeah I mean [REDACTED] here is saying third world country but I think they wanna make everybody into a third world country, bring us to our knees...

b6  
b7C

UM:

(UI)

These are the way explained, explained to me..

b6  
b7C

UM:

Oh it's just like it was the um..

You know what I mean, if they're, if we're brought to our knees okay then we'll capitulate to whatever they want, this is why they don't want the republic to, to um succeed. They want us to fail. As of right now we're the only game on the block. Okay this is why I'm saying ah I, I implore everybody please hang in there with us. Um, a little while longer, can I promise you any money? No I can't. Can I tell you that all of the blessings that I got some news that they're still working on the, the budget, yes they are, absolutely um, it, it, so, there's so many

b6  
b7C

things that could come quickly and believe me one of the things is it just ah I myself come into ah, the, the money personally, I will do what the, what, what um, we're capable of is, we're capable of floating bonds as, as a, as the republic and the re bonds, the the bonds would be like we could lend, be lent the money and paid back down the road at a later time and in the beginning paid back by the ah, ah paid back by the funders. So believe me if I myself could could give us that, give us some money right now to inject into here, ah I, I would do it. It's just I'm not in that, I'm, I'm not even close to that position. So ah...

UM:

I can, I can add a few things to that if you like...

b6  
b7c

Ah..

UM:

...and what I know anyway..

Yeah.

b6  
b7c

UM:

Um, there's, there's two groups out there, two main groups and one is called the White Hats and one is called the White Dragon Society and this is my understanding from my reading. I'm not saying it's true or false or otherwise. This is what I read. But it all seems to make sense to me and I've been looking at this for a quite some time and I finally got it in my head that this is, it's where the funding is coming from, now I don't know that for a fact but based on what I do know this is what I believe to be true and because of this, this is a international global refinancing of the entire, entire planet and it's a huge undertaking but but recently a couple of weeks ago, there was a fifty-seven countries finance ministers from around the world that got together and had a meeting and they're reorganizing the banking system as we know it today and there's Basel One, Basel Two, and Basel Three (PH) and all banks in the entire world have to comply to this new banking system which in, eh, which includes secrecy of your accounts, only person that knows about your account is you and the people you do business with.

UM: (UI)

b6  
b7C

UM: (UI) base...

UM: What's that?

UF: Okay.

UM: (UI)

UM:

[REDACTED]

b6  
b7C

[REDACTED]

No I'm sorry. I thought I was on mute.

UM: Oh, oh. So ah anyway that's my understanding of it and ah, so it's a huge undertaking...

UF: (UI)

UM: Yeah?

[REDACTED]

Ah [REDACTED] that's very well, well put, very well put, I, I mean um, you, you explained some of the names and it, and the ah, cast of characters that, that are out there ah, and and these people this is what they want now. Well I, I have said this on the governor's calls I have said either we, we, we can um, ah, give the confidence to our president that he's not leading us down a blind alley and down an alley where he brings us all into slavery, okay, ah and, and ah, leads us to ah, to destruction okay, um, I really from talking to [REDACTED] (PH), ah and, and personally talking [REDACTED] (PH) and with, you know what listening to him, I, I mean there's sometimes he says some things that were not so...ah that, that a little bit hard to comprehend or understand or even believe. Okay but for the most part um, I trust it and I hope that um you guys can, can understand that, that, I mean look what, what's the alternative? What's the alternative? Hey [REDACTED] from your reading [REDACTED] the alternative to what we're doing, okay, what are they say in those, those things that you're reading is the alternative to what we're doing right now in that new banking system.

b6  
b7C

b6  
b7C

b6  
b7C

[ ] Well the alternative right now as I know it to be true is right now ah, there's supposedly and I've, I've seen the camps but I have not verified the number but there's supposedly five hundred thousand UN troops in the State of Texas right now, in Canada as well and if they're, one they're, they're, because they're here to take over when the finances collapse of the, the United States, and there's but that's probably true and you can see them on google and they're about sixty miles south of Laredo, Texas, I know you can see the camps from google maps very easily and you'll, you can't really decipher what they are but you know they're UN because it's all white, all white tents, all white vehicles, it's obviously the white the UN, how many there is I have no idea I was told five hundred thousand. I don't know how true that is but that's the alternative.

b6  
b7C

UM: (UI)

[ ] If we if this doesn't work, this is, this is our alternative. That the United Nations are here to take over for civil unrest when the finances collapse that's my understanding. And so this has to take place...

b6  
b7C

UM: (UI)

UM: Yeah.

[ ] So I know [ ] said the other day that [ ] (PH) said that this is gonna happen by December. My belief, my understanding it's probably gonna be more towards the end of October and he said December or sooner, I say October because um President Obama, the Pope, all these people very well could be taken out, in fact I just saw today on mainstream media articles, stories about the Pope and Obama and they're not very favorable for either one of them and this is on mainstream media so they're preparing the mind for this to happen, this global settlements foundation, it's, it's a huge thing and, and the Dinari (PH) is tied out into this as well and it's a very complex, global system and everything is from my understanding is in place, ready to go, all the banking system's in place, all they gotta do is push

b6  
b7C

the start button. That's it. From my, from my understanding so. It's very positive in that light but this is a very critical...

That's good (UI)

b6  
b7C

..a very critical time because..huh?

Once again very well put. Continue, continue that...

This is a very critical time because we have two factions like [ ] said. Two factions of two forces and I call it the ice cube and the fire and you know the ice cube is on top of the fire hanging from a string from the ceiling and it's melting and it's either gonna put the fire out or the fire's gonna put the ice cube out and we're at the point right now, a one, one or the other is gonna go and ah, and my completely anyway, and I believe light always over shines darkness and that's where we're gonna go. I'm very positive in this. I lose sight of this sometimes because I get frustrated and all these things but overall I'm very excited and very confident that this is gonna happen. But it's very complex putting this all together on a very global scale and when that start button hits, be ready for the ride. So..

b6  
b7C

Yeah ah...this is [ ] I ah, I've heard that the ah, settlements are actually gonna be used to fund the ah, Dinar (PH) exchanges so they're, they're tied to the hip there. Ah...

b6  
b7C

Yes. Also I believe that too.

Ah [ ] I ah...

b6  
b7C

Okay, now I google can you say that again [ ] That, that they're tied to what now?

Yeah I just read that the ah the global settle, the global settlement funds are going to be used to fund the ah, Dinar (PH) exchanges. So one's gotta well immediately proceed each other.

[redacted]

Well, now, now this..think about what, what we have in the background people, we're not really supposed to be talking about, you know what I'm talking about, so when, when I, I, I say this okay, everything being tied together, I know this for a fact, and what [redacted] is saying makes one thousand percent, it makes a thousand percent, because from what I've been told that I can't say right now, okay, you, he's, he's absolutely right. He's absolutely right and this is why it's still taking a little bit of time for this to come to fruition. And there is a, there, there is a, a tie between it all.

b6  
b7C

b6  
b7C

UM:

[redacted]

Yep.

Okay but we've been told you know that, that the the take heart, to to stay the course, and that you, you know people who stay with us and everything and stay with this thing is gonna be rewarded. Okay. And look that's not a bad thing. Being reward for your vigilance and for doing work for nothing, okay, up till now, um, it, this is more than likely going to be God's wish and not only God but the wish of these people who are trying to put this together because without us there, and the voice of change, of their in their ear, hearing what, what's going on, remember people will um from ah, the, the governor of South Carolina's office are with these people and constantly around them, okay, and they're, they're listening, just in fact, the other night it was quite, quite amazing that when [redacted] (PH) was talking to us ah, on let me see which night was that, okay, Saturday night, I'm get, getting confused I have so many governor's calls now every week it's ridiculous, I don't have just one governor's call, we have two or three, we have small calls, long calls, calls with the president, calls with ah, ah like, with, with a economists all kinds of stuff, but anyway, um, from ah, lis, listening to what um, ah, [redacted] was explaining ah, and, and everything um, they're, they're in, they're in contact ah all the time right now with these people and they are, eh, they're watching us, he, he actually told us on Saturday night's call that all the governors understand this governors you are being listened to right now. That call was being listened to. Not even

b6  
b7C

b6  
b7C

b6  
b7C

monitored. It was being listened to by these funders. They wanted to know what all the governors of this country were thinking and that's why I stepped up, I was the first um, person to speak, I actually asked the, the ah the president if he could give us a small amount of money, I asked him for I said how about a million dollars, how about five hundred thousand, how about forty or fifty thousand, how about a hundred thousand dollars. There is never mind for salaries, I said just for the small things, the operational costs for people, paper and and products and things that we just need just to get going and it I said a little bit more money than that maybe I could give a, a, a fund, a little salary to some people to keep, to keep them going. You know if you gave a each, each state a million bucks, maybe you should start like that and see what we do with the million and if they don't like what we do with the million, then don't give us anything. I actually said that to him on the phone. He said that um, as far as that's concerned he said he wished he had a million dollars to give, give each one of the states because he'd do it and he said it wasn't a bad idea but that's not what they have in mind. They want us to put together budgets, he's gonna go there and talk to them and this thing is gonna get funded and he said and he was in hopes that it's before Christmas. Now I know [redacted] had said some concerns and just, justifiably so, how, what, when, where and why. Absolutely. I really believe that the the funders are the people that, that [redacted] and and [redacted] talking about...

b6  
b7C

b6  
b7C

UM:

(UI)

[redacted]

That, it makes so much sense to me because I, I heard from different people, now if it's, if it's one gigantic lie, well then that lie is spread out among many different people because they all have to be in cahoots and saying the same things because I hear something from one place and then it makes sense with some I hear from some place completely different. So...

b6  
b7C

UM:

Yeah. I'd like, I'd like to add something else too. Real quick.

Yeah go ahead (UI)

b6  
b7C

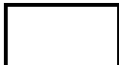

UM:

Um, the two, the two most important things that White Hats talk about and you can actually look at their website and I'll send you the link. It's really great, quite interesting stuff ah but anyway the two most important things that they talk about is keeping your officials ah, at bay at all costs and that is the most important thing that they stress that over and over and over and over and the other thing is this is not, this is all just in term, this money is I it's, for instance if I get a billion dollars from this Dinar thing which is ah you know would be either here nor there, just say for instance I get a billion dollars, my responsibility with that billion dollars is to help my community, help my school, to help people me, to do, do things I couldn't otherwise do to, to make everybody prosper and this is the whole idea, this world peace, now can that happen? Probably not overnight but over time I believe it can and this money allows us the opportunity in the interim to do that, to make that happen. That's all it is, is world peace, that's what the, that's what they want, those are the two things they stress over and over and over and over. So...

UM:

Okay ah  I didn't quite ah..

b6  
b7C

Very well put  when you..

UM:

What you say, when you say ah, ah keep the, keep your officials at bay ah what are, what you...

Yeah account, accountable for their own actions.

b6  
b7C

UM:

Okay.

You know. Eith, either in the de facto or in this republic, either or because we're working with both right now. And it's our responsibility to keep our elected officials who's you know ah accountable for their actions, you know and that's one of the things they stress in both systems, in the de facto and the republic but they don't men do, they don't really mention the republic in all this. They do it obscure

b6  
b7C

kind of way, you gotta kind of read between the lines, but ah, they don't really come right and [redacted] (PH) is the only one that's mentioned the republic in in all this and he's only mentioned it once that I'm aware of over the past, course of this past year, he's always said new government, new government installed in America and now all of sudden he's saying republic so. (clears throat) That gives me the indication that there's something very, very big going on here.

b6  
b7C

UM: Ah, yeah I notice that too. Um..

That, that is (UI)

b6  
b7C

UM: [redacted] I have a question.

(UI)

b6  
b7C

UM: [redacted] I have a question for you. Um..

Go ahead.

UM: And ah, you know whether it's appropriate for you to tell all you know I mean on a, a obviously up to you but um, I've read that there are ah ah mass protests planned in all the state capitals ah starting in a couple of days, there's one on Wall Street, actually I think it's gonna be on Saturday, um apparently I from what I read it was, it was anarchists and they're calling, they're calling these protests days of rage and I keep thinking this ah...

b6  
b7C

(UI)

UM: I'm just wondering whether this is an initiative on the part of the White House or on the part of the de facto to really ah, you know ah, to ah, necessitate a clamped ah, a clamp down, you know to, to bring about civil unrest and ah, I don't know I, I read it on the River World News (PH) but I've been reading about it now for about a month that there are these protests planned, one on Wall Street this Saturday but in all the other state capitals as well and they're called the days of rage which really is ah, out of ah, ah troubling is the name, you know.

b6  
b7C

Alright this is the first I've heard of this..

b6  
b7C

UM:

Alright.

Um, that so...

b6  
b7C

UM:

What it..

...I, I, I, at first a a glance I don't know whether to make of this whether you know you gotta remember sometimes the de, de facto themselves will, will plant certain things I don't know.

b6  
b7C

UM:

Exactly.

If they, if they create quote unquote a day of rage and they could get a a bunch of agitators out there, paid agitators who...

b6  
b7C

UM:

Yeah.

..whip up a bunch of people to go out with them, now the agitators will be arrested with a lot with them but when they're processed all of the sudden those certain agitators will disappear and everybody else is put away. You know...

b6  
b7C

UM:

Right.

And then what we, we have to watch out for is things, you know martial law, they used to do..

b6  
b7C

UM:

Exactly.

..martial law and us assembling becomes illegal.

b6  
b7C

UM:

Right.

UM:

Even then if you're a patriot you got but not if you (UI) de facto basically saying (UI)

 seems to think that that that have a rule that if, if more than two people together are talking or something like that it could be construed as an as some sort of ah, you know a, a subversive meeting or something. I don't know. I don't know if we, you

b6  
b7C

know the conferencing that we're doing now is, stuff is like that..you see what we..

UM: No the, the the as far as the the White Dragons go ah I heard, I read that that they if martial law is created in, in the United States, the White Dragons is a group of people of six point five billion strong around the world including the White House, the Pentagon, the, the FBI, the CIA, China, Russia, all over the world and they ah promised that they would be here if martial law was is, is created here in the United States. They've, they've stated that many times as well because they feel it's going to..

b6  
b7c

Oh yeah, but well will you explain that though.

UM: Yeah.

UM: But..

Explain that. Is that a, a good thing or you're saying the White Hats?

b6  
b7c

UM: Yeah the White Dragon Society. No it that would be a good thing. They would come to, to ah..

UM: Oh that..

UM: ..prevent that from happening. Prevent, put, that would prevent the the martial law scenario and they would probably be over, they would probably override the, the White House I would imagine. I don't, I don't really know, that's just speculation on my part but they did say that.

UM: But what, whatever it is gonna happen I, I think is gonna happen very soon I have feeling these the so called days of rage are going to, trip, trip the wire and ah...

UM: It's very possible.

UM: And expect to be...

UM: ...go ahead yeah.

336S-NY-306636 09/14/2011

UM: And those are the two factions that we have in the world, we have the good side and the, I call the light and dark, you know the, the dark is evil..

UM: Yeah.

UM: ..no, you know the light is the, the heavens ah so to speak and ah, these two factions are coming together and they're gonna the de facto will, will do anything in their power to, to remain in power everything they don't care...

UM: Well..

UM: ..they can, they, they you know basically killed three thousand people in nine eleven do you think they care about Obama, do you think they care about me or you or, no they don't care they have, they have no empathy. They do not care about human life. So and it's a hard reality but that's the truth of it, you know.

UM: Ah yeah.

UM: Yeah ah, the weather ah...

UM: Yeah.

UM: The Weatherman Underground of which [redacted] (PH) was the [redacted] apparently ah, they, they staged an event called the days of rage in Chicago in nineteen sixty-nine and ah, just the fact that they're using the same language ah makes me think that ah, this is the de facto cause I think the Weatherman Underground was also de facto. Ah and it was, it was done for a purpose which was to ah, discredit the anti-war movement by shrouding it in a...

UM: (UI)

UM: ..violence and...

UM: Just about do it..

UM: Yeah. So and..

b6  
b7c

336S-NY-306636 09/14/2011

UM: I think that's, it looks like that is happening again and ah, but looks like ah we're gonna see this maybe sooner than we anticipated like well before Christmas.

UM: Yeah very possible.

UM: Like I said this is a very critical time because of that, the nature of the, the two, the two powers coming together and it's gonna, it's gonna rumble a little bit (laughs) how much is the question.

UM: Yep the other, the other thing is I don't know if you've ever heard this but um, apparently this ah earthquake that ah, this alleged earthquake that happened on August thirtieth with the epicenter in DC was actually not an earthquake, it was actually a nuclear bomb placed by the White Hats that took out the whole underground city ah, that the ah Illuminati (PH) had created...

UM: Yes.

UM: ..to ride out the ah, the ride out the ah, you know anarchy that they're threatening to unleash on this country.

UM: Right, right Washington and ah, Denver..

UM: Denver..

UM: Denver right.

UM: Yeah. I, I saw the same thing.

UM: So anyway that's the, that's a wrap. (laughs) Just kidding. Um..

UM: (laughs)

UM: This is a

UM: (laughs)

UM: Yes.

b6  
b7c

UM:  Ah did you, did you say that they're, they are  
ah members from the White Hat and the White Dragon  
Society that are in our um, military?

b6  
b7c

UM: Oh yeah.

UM: Yeah there's..

UM: (UI)

UM: ...there's factions of white..

UM: Yeah.

UM: ...White Dragon Society that is cause in inside of  
all these groups and then in Washington there is  
good people there, there's the problem is...

UM: That's true.

UM: ...is the people who run it are there is is the evil  
ones, so there's good factions inside the, the  
pentagon, there's good factions inside the CIA,  
there's good factions inside the FBI, the, the  
leaders of those organizations are probably corrupt  
to the core, just like the White House, there's good  
people there and they're all part of the White  
Dragon Society and it, and in fact the, the White  
Hats, the one, the people that, the finance  
ministers are a lot of them are from the pentagon.  
Themselves.

UM: Yes.

UM: So..

UM: Yes.

UM: There is, you know there's good and evil in  
everything.

UM: Ah yeah. True.

UM: So. Anyway it's a ten, ten, it's going on three..

UM: Yes.

UM: ..all almost three hours.

UM: Yes. Yeah.

 ah..

Yeah.

..just, just back up what you said because remember, a lot of times this is just hyperboles if we just oh, you know they, they're this and this and I know that you're very well read and you've been reading this but in that article for that (UI) he explained in there that some money ah there was ah members ah and representatives from the pentagon and the US Military there to speak with those funders and it was about funding the US Military.

UM: Yes, yes in fact um, (sighs) during, during this meeting, now this is the story I got, during this meeting that these seven, fifty-seven finance ministers, they met on a ship by the way um and they're waiting now they're gone, they're gonna sign up ah, their next sign up is Japan, well Jamaica (PH) (UI) and then once Japan jumps on board supposedly there's another eighty-one countries behind this. So it's gonna move very, very, very rapidly as this goes forward and anyway on this ship, David Rockefeller tried to board that ship because he's part of the de facto and he tried to get in and they would not let him and so he stomped his feet and said well do you know who I am and the, the guardsmen at the door of the ship says yes we know who you are, you're a nobody and well, I wanna come on this ship. Well ah, I'm sorry but you're nobody and you can't and so anyway David Rockefeller left and got his own security, his own helicopter, and they're about ready to, to bomb ah missile at attack this ship that they were on and it was the US Military but I believe or some military came and pushed them away and kind of gave them the, the wing tip as they call it, and the wing tip is a signal dude you better back off or be blown out of the sky to these helicopters.

UM: Yeah.

b6  
b7C

b6  
b7C

UM: So, ah some military I don't I'm not positive it was the US Military but I believe so.

[REDACTED]

Was it..

b6  
b7C

UM: But they're the..

[REDACTED]

...I think the military of the, of the country that was sponsoring (UI)

b6  
b7C

UM: Very possible yes.

[REDACTED]

Yeah and um, it because the US, the US Military I think is close by but they didn't see this but they, the, they were being protected by the ah, military of the, of, of the country who was sponsoring it and ah..

b6  
b7C

UM: Very possible yes.

[REDACTED]

..who had a couple of fire, fighter jets...

b6  
b7C

UM: Yep.

[REDACTED]

And um, those guys were probably like Blackwater types. You know what I mean that, that ah, Rockefeller can hire like mercs.

b6  
b7C

UM: Right.

[REDACTED]

You know.

b6  
b7C

UM: Yeah private security.

[REDACTED]

(UI) Um, just one..

b6  
b7C

UM: Yeah (UI)

[REDACTED]

..ah I'm. I'm gonna end, leave you guys with this um, [REDACTED] ah, like (UI) was the, the flag guy, you know the guy who does the flags and he joined the ah republic um, he's very knowledgeable, very well read and has many, many ah, friends, insiders, he's ah, has a lot of very, very important friends in ah, Manhattan and in business finance um, he happens to actually know somebody who is a part of the trillion

b6  
b7C

dollar family trust and that person has been feeding some information, explaining that our past four presidents are gonna try to go to China with their tail between their legs to say that, to ask them and beg forgiveness over there, that they aren't taken down with the rest of them. So you understand this, they're going over there to ah, to, to try to ah, save their own ass's so to speak because ah, they're, they're supposed to have a meeting with this Dragon Society family in China, a trillion dollar family, and a our four former presidents, the two Bush's, Clinton and ah, ah, and on and Obama right now. They're all supposed to be represented there and ah are trying to save they're own butts. Plus [ ] (PH) also um, had a conversation, what was that about five years ago with that ex-general? Um, [ ] (PH) it, knows a, a an ex-general who was ah, very, very high ranking in the ah, in, in up in the pentagon and um, he had a sit down with them one day where the guy explained to him years and years ago about what is happening right now. It's just remarkable like the way he explains it and then, and he told us it it's not like he's telling us now, [ ] told me it was a long time ago, and then we're watching a lot of what this general had to told him, ah it, it's coming true, it's all coming to, ah to foren, fruition. So..

b6  
b7C

b6  
b7C

UM:

Yeah.

This is why I encourage us all to please stay in the republic, please stay with us. Okay. Hang in there guys, I, I really think that in the end, there's a, um, ah, ah if it, if it's not just a monetary reward, it will be self rewarding, okay and one of the things you'll know is that you were part of a huge change on this planet and ah, you know years from now you can sit back and look at your family, friends, children, whatever and know that ah...

b6  
b7C

UM:

(UI)

That, that yeah that your persistence, resistance and ah, ah and, and hard work um, all of part of this and I think that um, you'll, you're, you know us being rewarded for this is not a, is not a bad

b6  
b7C

thing um, there's one other thing now if [redacted] ah  
if this is the way [redacted] wants to go and he  
doesn't wanna be senator, um, then, um, I have  
personal um, ah, plea out there for another  
senator...

b6  
b7C

UM:

(UI)

And, and I would hate to lose her as a congressman  
but we have a congresswoman who I think is well  
capable of becoming a senator and that's [redacted] Um,  
I don't know if she would consider it, ah I don't, I  
wanna know what um, everybody else thinks and unless  
we have somebody else out there or people know  
somebody that would be competent enough to be,  
become a senator um, it's an extremely important  
position as everybody knows, ah please don't take it  
lightly and just say I want a job. Okay, that's a  
very, very, very, very important position, and um,  
you can see [redacted] frustration in it, that it  
could be overwhelming, okay, ah, so um, [redacted] are  
you still on the call?

b6  
b7C

b6  
b7C

Yeah.

Yes she's here.

b6  
b7C

I'm here. Um..

(UI)

..ah, ah that's something I would really have to  
think about. As you know, ah, ah, ah I, I, actually  
I don't think it's something that I would ah, I  
would be interested in.

(IA) senator...

Okay, as you see [redacted] takes her job very seriously.  
Okay, and she's great at what she does, not good,  
she's great and ah, I thought maybe taking a ah, a  
congressman would, a congresswoman with some ah, ah,  
with some, some ah, ah, I guess ah, a background,  
you know what I mean, some experience would be the  
logical step to move up to senator but um, let's all  
consider this. Okay, consider this a lot and ah, I

b6  
b7C

guess [ ] will stay with us and we could perhaps if [ ] wants to do this education stuff. There's gonna be a, a place for him doing that because we do not have to have two, I think there's at least two or three positions of people who have to educate people as they come into the republic and become officials. So that's something that we're gonna need. Um, alright, alright, I guess it's ah, tied up. You want um, bring us out [ ]

b6  
b7C

[ ]  
Alrighty and so the end our call on September um, whatever day it is (laughs). Um, September fourteenth, two thousand eleven and it's now ten nineteen pm and that's a, that's a wrap. Thank you all.

b6  
b7C

UM:

Thank you [ ]

b6  
b7C

[ ]  
(UI)

b6  
b7C

Computer: You're conference recording has stopped.

UM: Hope you all ah, hope that I helped you a little bit today understand some things.

UM:

Thank you again [ ]

b6  
b7C

UM:

(UI)

[ ]  
Thank you again [ ]

b6  
b7C

UM:

Thank you so much [ ] you did excellent. Thank you.

[ ]  
Thank you. Alright have a good night.

Good night everybody.

b6  
b7C

UM:

Thank you (UI)

UM:

Good night.

(call ends) (end of recording)
